Olympic Games – 2020 Japan

- First time FAI has submitted proposal for air sport to be listed in Olympic Games and submission was made through NAC Japan.
- 26 other sports that has submitted their papers
- FAI should not give up and keep trying until our air sport successfully included in the games.
- Appreciation should be given to FAI Head Office, NAC Japan and CIVL Air Sport Commission for their effort to prepare the papers.
- I would like to suggest that FAI should try to convince Japan Olympic Organiser and IOC to at least consider air sport as a demonstration games during Olympic Games 2020. This will be a stepping stone for air sport to be included in the future Olympic Games.

6. Strategy

In order for air sport to further developed and promoted in Asia region, more air sports competitions should be created. Beside FAI sanction event, air sport should have footing in multi-sport event. FAI should approach and make presentation on air sport activities in Asia to Olympic Council Asia as many other sports have done. Other strategy is:

a) Encourage all NAC to register with NOC and Sports Administration of their country
b) Encourage NAC to organise more international air sport competitions
c) Encourage NAC to participate in international competitions
d) Recruiting more countries to be member of FAI. At present there are 45 countries in Asia and only 27 are members of FAI
e) Formation of air sport body in Asia to represent all NAC in Asia
f) Supporting NAC in my region and organising FAI regional meetings (at least twice a year)
7. Threats

Biggest threats in some countries are:

a) Air Space restriction (Vietnam, Cambodia and Myanmar) controlled by Military
b) Air sports not recognised by NOC and Sports Administration
c) Cost of organising certain air sports are too expensive
d) Difficult in obtaining sponsorship for air sports competition
e) Other sports are more aggressive in getting listed in multi-sport event

Air Sport Analysis In Multi-Sport Games Asia

Success Event

a) 1st Asian Beach Games 2008 Bali Indonesia (Paragliding)
b) 26th SEA Games 2011 Puncak Indonesia (Paragliding)
c) 3rd Asian Beach Games 2012 HaiYang China (Paramotor)
d) 4th Asian Beach Games 2014 Phuket Thailand (Paramotor & Paragliding)

Failure to be included

a) 2nd Asian Beach Games 2010 Muscat Oman
b) 27th SEA Games 2013 Myanmar
c) 28th SEA Games 2015 Singapore

- Success for inclusion of air sports in multi-sport games are entirely depending capability and good relationship of NAC with their NOC and sport administration.
- Experience in organising international air sports event is the main criteria.
- Failure of 3 games for inclusion of air sport is either the NAC do not have experience or that particular country does not have air sport NAC.
- NAC has not registered with their NOC.
**Royal Aeronautic Sports Association of Thailand**

RASAT has managed to secure authority of air sport law from DCA and passed by Thailand Parliament on 24 August 2015. This includes personal licensing, airworthiness and safety management. RASAT has also conducted coaching and clinic on 23 August 2015 for paramotor for Indonesian pilot in preparation for 2\textsuperscript{nd} AOPC October 2015.

I would like to express my appreciation to FAI President, Executive Directors, Secretary General, Head Office Staff and all NACs in East & South Asia region for giving support and encouragement to carry out my duty as FAI Regional Vice President (East & South Asia)
