

FAI GENERAL CONFERENCE DRONES DEVELOPMENTS

Bali, October 2016

FAI as the Authority behind sanctioning drones competitions

- CIAM decision for a permanent S/C
- Implementation of new rules – F3U
- Copyright the activity
- FPV Racing events
 - 9 World Cup events
 - More than 200 participants
- Agreement with ERSA

Protecting air sports in view of regulatory activities

- FAI was represented at JARUS meeting
- Closer cooperation with EAS and IAOPA
- Launch a survey for the members
- FAI was represented to Asia region symposium
- Joint statements with other organizations
- FAA Declaration
- Joint meeting with EASA

Plan to introduce an educational / informational platform

Benefits

- Very important “tool” for our members
- Could be used by authorities
- Could be used world wide and in many languages
- Will reflect FAI common strategy
- Deadline to collect material

Plan to introduce an educational / informational platform

Plan to introduce an educational / informational platform

How to attract new practitioners of air sports?

Considerations

- We need to understand that we don't have to do with ordinary aeromodellers
- Modern marketing activities
- Flexible ruling procedures in order to adjust/align sporting code with the evolution of the activity
- Attracting events for competitors, spectators and media
- Look for "big names" as sponsors

Working for the Future
