- **The World of Rotorcraft**
- **From Sport to Rescue and**
- **All in Between**

  
108th FAI General Conference 4

Agenda # 22 – CIG – Rotorcraft Commission Report  
**OBSERVATIONS**

- Congratulations on the FAI Young Artists Competition - Helicopter Rescues – So many entries – high standard. Some who will never have seen a helicopter in flight.
- The 2015 World Championship was awarded in 2013. The venue was a military/civilian airfield. Consent was withdrawn. Since then a second venue has been approved but still no Organiser Agreement signed after a year.
- World Air Games – Dubai. CIG would like to participate. A number of athletes are keen. The availability of suitable helicopters in that area is being investigated. The results of the December Meeting are awaited.
- Meanwhile there are annual open Competitions in Europe with invitations to all. There is a reluctance to put them on the FAI Website. They are run in accordance with the FAI Sporting Code.
- With only one Championship every 3 years the Commission's Income is very small. There seems to be no way of increasing it. Any worthwhile suggestions?
