1.5 **Application Fee**

See proof of payment in Annex A

Banking Information:
- a) Account Name: Airspace SA
- b) Account Number: BE 78 7340 3585 8986
- c) IBAN: BE 78 7340 3585 8986
- d) BIC: KREDBEBB
- e) Bank name: KBC Heverlee

1.6 **Commercial Rights**

As per FAI rulings

1.7 **Distribution or revenue**

Airspace Indoor Skydiving has been operating since April 2014. Airspace Indoor Skydiving has from day one operated with a focus on proflyers and athletes for both training and competing. The current management actively works to promote and encourage the sport by organizing both camps and competitions. Airspace also sponsors teams and athletes in their training. The drive and motivation from the management and staff has led to a combined in-depth experience with organizing national and international competitions.

2 **Event Details**

2.1 **Full name of event**

3rd FAI World Indoor Skydiving Championships 2019

2.2 **Letters of approval**

- Annex B1 - CCI Hanuit
- Annex B2 - Charleloi Airport (BSCA)
- Annex B3 - Echevin Eco & commerce Ville Charlero (Council of sports and economic affairs)
- Annex B4 - Red Bull
- Annex C1 - Maison du tourisme (Ministry of Tourism / Interior)

2.3 **Disciplines to be contested.**

Formation Skydiving Events
- 4-way FS (Open, Female, Juniors)
- 4-way VFS

Artistic Events
- Dynamic 4-way (Open, Junior)
2.4 Event Dates

Airspace Indoor Skydiving suggests to hold the event during the easter holidays, April 2019. Large and successful international events has perviously been organized and hosted at Airspace Indoor Skydiving during this period (Charlewars and Charlewars II). We know from experience that these dates work well, it is at the end of the northern hemisphere Indoor Skydiving training season. The fact that it is during an international holiday gives more spectators a chance to attend and/or follow the events live stream.

Complete program / Competition dates and schedule:

- **Official arrival day/**
  - **Wednesday April 17, 2019**

- **Official practice day(s)**
  - **Thursday April 18, 2019**
  - **09:00**

- **Opening ceremony**
  - **Thursday April 18, 2019**
  - **18:00**

- **Competition starts**
  - **Friday April 19, 2019**
  - **08:00**

- **Competition ends (last take off)**
  - **Sunday April 21, 2019**
  - **16:00**

- **Award ceremony**
  - **Sunday April 21, 2019**
  - **19:00**

- **Banquet & closing party**
  - **Sunday April 21, 2019**
  - **20:00**

- **Departure day**
  - **Monday April 22, 2019**

2.5 Location of Event

Airspace Indoor Skydiving is located in Charleroi, Belgium, by the Brussels South International Airport only 58 kilometers from Brussels down town. Located in the center of Europe Airspace Indoor Skydiving is close to several large population centers and is therefore easily accessible with public transportation, car and by air. (See Annex D for illustration of map with venue in relation to major European Cities as well as Belgian Cities)

Address:
Airspace Indoor Skydiving,
Rue Charles Lindbergh 26,
6041 Charleroi,
Belgium

2.6 Access to location

By Air

- **i) Brussels South Charleroi Airport (CRL), International Airport, is located just south-east of the tunnel. Only a 5 min drive from Airspace Indoor Skydiving.**

Getting to Airspace Indoor Skydiving from Brussels South Charleroi Airport (CRL)

- Free on demand shuttle bus service provided for everyone on official arrival - and departure dates by Airspace Indoor Skydiving. Contact reception on number +32 (0) 71 91 91 00 on arrival or email booking@airspace.be for pre-booking.

- Walk (estimated 17 min from door to door)

- Taxi, with several different companies operating to and from the Airport.
Car Rental, the main car rental companies have offices at the airport:

ii) The main International Airport in Belgium, Brussels Airport (BRU), is located 55 kilometers from Airspace Indoor Skydiving.

Getting to Airspace Indoor Skydiving from Brussels Airport (BRU)

- Free on demand shuttle bus service provided for everyone on official arrival - and departure dates by Airspace Indoor Skydiving. Contact reception on number +32 (0) 71 91 91 00 on arrival or email booking@airspace.be for pre-booking.
- Taxi, with several different companies operating to and from the Airport. https://www.brusselsairport.be/en/passngr/to-from-brussels-airport/taxi
- Car rental. In the arrivals hall you will find the desks of the major car rental companies. https://www.brusselsairport.be/en/passngr/to-from-brussels-airport/rental-car
- Bus and Train are alternatives that can take you from Brussels Airport to Airspace Indoor Skydiving. The bus station is located on level 0, one floor down from the arrivals hall, and can easily be reached by using the escalators or elevators. The airport train station is located below the terminal (basement level -1). https://www.brusselsairport.be/en/passngr/to-from-brussels-airport/train

By Train / Public Transportation

For competitors and spectators traveling from neighboring countries, arriving by train is a good option. Direct trains to Brussels-Midi (Central station) depart from Paris, Amsterdam, London and Luxembourg amongst other large near by population centers. https://www.raileurope.com

From Brussels-Midi there are both bus and train connections to Charleroi. http://www.belgianrail.be

There is also shuttle traffic going from Brussels-Midi to Brussels South Charleroi Airport every half hour between 03.00 - 22:30 https://www.brussels-city-shuttle.com/en/timetable#/bru-crl2

For competitors, judges and members of Official Delegation, Airspace Indoor Skydiving will be offering a free on demand shuttle bus service from the Charleroi Central Station, where both busses and trains stop on official arrival and departure dates.

By Road

Airspace Indoor Skydiving is located just off E 19 and E 42, which are highways connected to the international E-road networks. Table 1:1 below provides some examples of the distances and estimated time it takes to get to Airspace Indoor Skydiving by car from some of the nearby large population centers.

<table>

</tbody>
</table>
2.7 **Weather Conditions** – Not applicable

2.8 **Airspace Restrictions** – Not applicable

2.9 **Landowner Restrictions**

Airspace Indoor Skydiving owns the land where the tunnel is located, hence no restrictions apply. No third party restrictions apply to the operation of the tunnel by any.

2.10 **Details of Event Insurance**

Airspace Indoor Skydiving has comprehensive liability insurance. Airspace Indoor Skydiving agrees to obtain insurance acceptable to FAI/IPC standards, in respect to the sporting event when awarded the Bid. The FAI, its respective directors, employees and assigned event Personnel will be added as requested to the policy as additional insured parties during the event.

2.11 **Details of Insurance**

Airspace Indoor Skydiving does not require tunnel flyers to hold third party liability insurance. During the registration process all flyers are asked to sign a waiver and risk acceptance statement. Each participant will be responsible for getting their own travel medical insurance.

2.12 **Budget and Pricing**

The budget and pricing for this event has been created by using the current IPC rules in consensus with the organizers' responsibilities concerning the “Indoor Skydiving Competition Bid Guide 2017”. Airspace Indoor Skydiving will not charge anything for audience entrance but will however offer VIP tickets that include food and drink.

**Competitors entry fee include:**

- Opening ceremony
- Competition cost (including potential re-flights)
- Shuttle bus service between the tunnel and recommended hotels through out the competition
- Transportation to and from Brussels Airports and the Central Station on arrival and departure
Annex 46

Non-Competitors entry fee include:
(anyone that is part of the Official delegation e.g heads of delegation, team leaders, coaches and judges in training)

- Opening ceremony
- Shuttle bus service between the tunnel and recommended hotels through out the competition
- Transportation to and from Brussels’ airports and central station on arrival and departure
- Lunch, snacks and refreshments every day during the competition
- Closing ceremony and banquet including food and drink
- Entertainment

2.13 Facilities

See Annex E for blueprints

The facility is enclosed in one building and designer-built for a modern wind tunnel.

**Ground floor:**
When entering the building you meet a beautiful large open space of 170 m², specifically designed to draw your attention straight to the flight chamber. The open space allows an easy flow between reception, bar and the flight chamber. For more detailed information see Appendix E.

**First Floor**
To access the second floor there are two stairs on either side of the entrance. This floor is specifically designed for spectators, with an open mezzanine of 120 m² and a glass balustrade for an excellent view of the tunnel. On the first floor is also a large conference room, a large office, toilets, several smaller office spaces and a staff room.

**Judges / Judging area:**
The area around the tunnel is sufficient for both live judges and audience. The facilities can also dedicate two private rooms to the judging panels equipped with computers, video playback monitors, screens, private internet access, scoring system, scanner, phone and printer.

**Jury / FAI controller:**
Airspace Indoor Skydiving can dedicate a private room to the jury and FAI controller equipped with computers, screens, private internet access, phone and printer.

**Competitors:**
The building has two large changing rooms equipped with a total of 60 permanent lockers and 2 showers. The facilities include an exclusive large area (lounge) for the competitors alone, with seating areas, sofas, water machine, coffee machine, etc. The lounge is also equipped with screens and computers where the competitors can access their judged videos. The exist-
ing system automatically uploads all video to the server from all the cameras in the tunnel and enables immediate access to the videos from all stationary computers in the building.

In addition a temporary extension to the building will be set up as the competitors private facility adequate for gear storage, preparation and creeping. Screens will be set up so that the competitors can access their videos and see the scoring.

A sufficient amount of creeping boards is also available for the competitors together with whiteboards for each team.

**Media Area:**

A sufficient area for media is available on site including a private room equipped with computers, screens, private internet access, phone and printer if required.

**Food Services:**

A large professional kitchen with freezers and fridges as well as cooking equipment is available on site for catering. We have a good relationship with a large local catering company that is frequently brought in for large corporate events held at Airspace Indoor Skydiving. Besides the current restaurant area, a large area on the terrace can be reserved for serving food for competitors, staff, camera team, organizers and volunteers. The terrace will be covered with a roof and equipped with heaters. This has successfully been done for previous international competitions held at Airspace Indoor Skydiving.

The private grass area (5500 m2) that surrounds the tunnel is big enough to put up more tents for food and drink.

**Parking:**

The private parking owned by the tunnel can fit up to 75 cars. We also have great potential to access nearby parking if needed, up to 500 cars.

**Showers and Toilets:**

In the building there are three showers and seven toilets. The private area around the tunnel is large enough to instal temporary facilities for toilets and showers if required.

**Drinking Water Outlets:**

There is a sufficient amount of drinking water outlets inside and outside of the building for a large number of people.

**See our facilities on Google View:**

[https://www.google.com/maps/@50.47231,4.474271,3a,61.7y,13.54h,76.85t/data=!3m7!1e1!3m1!1s-3m51sbbBr5mAk5GYAAAQphVrx1Al2e0j3e2i71i332i8i66567hl=en-US](https://www.google.com/maps/@50.47231,4.474271,3a,61.7y,13.54h,76.85t/data=!3m7!1e1!3m1!1s-3m51sbbBr5mAk5GYAAAQphVrx1Al2e0j3e2i71i332i8i66567hl=en-US)

**2.14 Wind Tunnel**

Airspace Indoor Skydiving uses wind tunnel technology developed by Indoor Skydiving Germany (ISG). The ISG technology provides arguably the smoothest airflow of any vertical wind-tunnel. The flight chamber consists of 5 meters high and 32 mm thick glass which creates an
optimal outside view of flying for the audience. The thick glass contributes to a relatively quiet
environment free of tunnel noise.

The exceptionally high glass makes the tunnel space feel larger than other tunnels with the
same diameter. It also contributes to outstanding visuals for the audience.

The door of the anti-chamber can be opened and closed at any time while the tunnel is run-
nning, which enables maximum efficiency regarding flying time (see Annex F for photos of anti-
chamber and door). With the ISG louver technology we are able to regulate the temperature
inside the tunnel within 1 °C of the flyers preference.1 The tunnel is capable to operate at a
maximum speed equivalent to 310 km/h.

The tunnel owners and the staff takes great pride in the appearance of the tunnel and after
four years of running it is fair to say that the tunnel and facilities look as good as new.

Staff Maintenance:

• Twice daily operational maintenance checks are completed and recorded by the
  trained tunnel staff.
• The net is a matter of pride as well as safety, the instructors frequently change fraying
cables at the earliest convenience. The turning vanes are cleaned once a year or
when required.
• The tunnel is maintained using a daily, weekly, monthly, quarterly and yearly checklist.

Contacted Maintenance:

• Once weekly the tunnel is cleaned by professionals inside and outside including walls,
glass and anti-chamber

Tot number of hours: + 10,000 h
Diameter: Ft 14.7
Hight: 17 m
High of the glass: 5 m
Windspeed Setting: Flyable range from 60-97 %
ISG technology

Cameras:

All cameras will be set up for judging by the live judging panel.

All cameras are able to record and store the footage for review. The existing system automatic-
ically uploads all video to the server from all the cameras in the tunnel and enables immediate
access to the videos from all stationary computers in the building.

All current cameras comply with the technical requirements in the IPC Competition Rules.
Indoor Skydiving is an experienced host of national and international Indoor Skydiving Events and agrees to set up all required cameras with the technical requirements
and backups, in the IPC Competition Rules including:

• For IS Formation Skydiving: a top view camera

1 With the exception of the extremely rare cases when the outside temperature exceeds around 30 °C since the
weather remains mild all year round with average highs of 23 degrees Celsius in the summer
For IS Vertical Formation Skydiving: a bottom view camera.

For IS Solo Freestyle: a wide-angle camera, placed directly in front of the tunnel.

For Dynamic Flying:

- Speed routines: a camera placed at the sideline and centerline. All cameras will be set up for judging by the live judging panel.
- Free Routines: one camera placed at the centre of the viewing gallery arch.

It is understood and agreed that Airspace Indoor Skydiving will have all equipment needed ready and operational for all competition performances and official training. In addition to the minimum requirements, Airspace Indoor Skydiving commits to having judging cameras and light bars set up and ready prior to the competition during the pre-event flight time (10 days prior to competition).

**Music / Public Address System**

Our facilities are equipped with excellent built-in speakers for music in all areas of the building. Sound engineers will be hired to install professional speakers for the audience as well as all necessary equipment for the athletes performance such as earphones, receivers for the flyers and transmitters. The Public Address System and speakers for music will be customized to meet the requirements for the competition and the high standard of entertainment that Airspace Indoor Skydiving will present. The temporary system will extend to the added on areas during the competition, such as the food tent.

### 2.15 Pre Event Training

**Pre Event Training**

As a contribution to keeping competitors costs down, Airspace Indoor Skydiving will offer a favorable rate to all teams for Pre-event training. The rate offered to competitors will be 500€ per hour under the conditions that the team has registered and made a full payment of the entry fee. All members of the team need to be present and flying during the pre-event training.

**Pre Event Flight Time**

Airspace also offers all competitors a favorable rate 10 days prior to competitions start, 500€ / h. Airspace Indoor Skydiving commits to reserve blocks of time exclusively to competitors during this period.²

### 2.16 Accommodation

There are plenty of accommodation options close to the tunnel in all price ranges. Airspace Indoor skydiving will recommend a selection of hotels in the area to competitors and spectators with favorable rates negotiated on behalf of the event by Airspace Indoor Skydiving. An accommodation coordinator will be available from Airspace Indoor Skydiving to assist with bookings and questions.

---
² Time will be reserved up to 2 weeks prior to the start of the period of Pre-event Flight exclusive for competitors to book.
The free Shuttle Bus will be operating between the tunnel and the recommended hotels during the competition at the competitors convenience.

2.17 Local Transportation Provided

Airspace Indoor Skydiving will be providing transport services in form of shuttle busses throughout the competition so that competitors, FIA and IPC officials have the flexibility to travel between the tunnel and their hotel.

2.18 Outline of Media Plan

Media Plan

Pre-event
> Pre-event Page ——> Event website
> Social Media announcement
> Blog post / mission statement
> Partner outreach

Event Launch
> Launch e-mail
> Press release
> Blog and social media announcement
> Partnerships
> Event website & app
> event # (hashtag)
> Athletes profile

Day to day
> Regular e-mail, social media, blogging and news updates
> Thought leadership and guest posts
> Payed promotion

**During**

> Social media posts and announcements
> Live streaming
> VIP national press invitations
> Event website & app

**Media Focus**

The main focus will be to attract a broader audience for the sport, attract sponsors, engage athletes (competitors and non-competitors) and attract other media with national and international coverage.

Initially, focus will be on pre-event marketing, by creating a pre-event page and website the event will have a central page to drive people to that will be used to capture leads and early interest. Social media will be used in addition to the pre-event page and website to create momentum and attract a broader audience, partners and sponsors. On these platforms the live stream will also be announced and marketed early to encourage people to follow the competition.

Invitations will be sent out through e-mail blasts to attract a larger audience in conjunction with the event launch. Collaboration with tourist departments and both local and international established websites such as www.residentadvisor.net will be established to help market the event.

Press releases will be written with key search terms in mind, so that anyone with google alerts set up for those terms will see the release. VIP press Invitations will be sent out via e-mail to selected national media channels.

Airspace Indoor Skydiving will also invest in paid advertisement during the day-to-day event marketing period leading up to the competition.

**Media Channels**

As an established and successful business Airspace Indoor Skydiving has developed a solid and proven media strategy. Airspace Indoor Skydiving is working with several external media channels with proven excellent response. These include local newspapers, tourist departments and local TV channels. Airspace continuously work with social media channels like Facebook and Instagram, as well as our own website, all which are frequently updated.

## 2.19 Accommodation details for FAI/IPC officials.

FAI and IPC official will be accommodated at Hotel Charleroi Airport - Van Der Valk. The hotel is located 5 km from the tunnel, 9 min by car.

See Annex H for photos

**Contact:**
Address: Chaussée De Courcelles 115, Gosselies, 6041 Charleroi, Belgium
Website: [www.hotelcharleroiairport.be](http://www.hotelcharleroiairport.be)
Phone: +32 71 25 00 50
2.20 Details of all Judging and Scoring Equipment to be provided.

Airspace Indoor skydiving commits to acquire judging and Scoring equipment that meet the requirements set forth by the IPC for all events. Airspace has access to Intime scoring system through the Belgian Parachute Federation.

2.21 Public Address system

Our facilities are equipped with a proven and well functioning public address system for the whole building. We also have good relations with professional sound engineers that will be hired to install a temporary professional public address system specifically to meet the requirements for the competition and extend to the added on areas such as the food tent.

2.22 Safety

All legal requirements are met for the building in regard to safety and emergency plans, emergency exits, fire-extinguishers, etc. Paramedics and on-site medical personnel will be arranged according to the requirements for the competition. Full ambulance and medical services are available through 112 emergency service.

Hospital:
Several hospitals and health centers are located nearby the tunnel. Nearest large hospital is 5 min by car from the Tunnel.

Address:
Clinique Notre-Dame de grâce Gosselies
Chaussée de Nivelles 212
6041 Charleroi

2.23 Proposals for Event Officials

Event Officials to be determined in association with the IPC.

Airspace Indoor Skydiving will cover travel, food and accommodation for FAI controller, chief judge and assistant to chief judge. For all other members of the judge panel and event officials food and accommodation will be covered by Airspace Indoor Skydiving.

2.24 Details of On-Site Communications

Airspace Indoor Skydiving is fully equipped with multiple phone lines for both in-house communication and external calls. All offices and conference rooms are equipped with phones.

Mobile phone communication will also be available, where messages can be sent to all registered phone numbers. Competitors and members of delegation can choose to register one or several phone numbers on arrival to receive updated and information during the event. There will be an application that will be available for free downloading where a large range of information and news will be available.

2.25 National, State, Provincial, Local, Organizer Legislation / Rules

There are no national, state, provincial or local legislation or rules that applies to this event.

The organizer, Airspace Indoor Skydiving, requires all competitors to sign a waiver and risk acceptance statement and to wear a helmet while flying.
2.26 Visa Requirements

Citizens of the European Union do not need any form of visa or other permission to enter Belgium.

Citizens of the following countries, traveling with a valid national (ordinary) passport do not need a visa for visit up to 90 days in a 6 month period:

Albania, Andorra, Antigua & Barbuda, Argentina, Australia, Austria, Bahamas, Barbados, Belgium, Bosnia and Herzegovina, Brazil, Brunei, Bulgaria, Canada, Chile, Costa Rica, Croatia, Cyprus, Czech Republic, Denmark, El Salvador, Estonia, Finland, France, Germany, Greece, Guatemala, Honduras, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Latvia, Liechtenstein, Lithuania, Luxembourg, Macao, Macedonia, Malaysia, Malta, Mauritius, Mexico, Monaco, Montenegro, Netherlands, New Zealand, Nicaragua, Norway, Panama, Paraguay, Poland, Portugal, Romania, San Marino, Serbia, Seychelles, Singapore, Slovakia, Slovenia, South Korea, Spain, St Kitts and Nevis, Sweden, Switzerland, Taiwan, United Kingdom, United States, Uruguay, Vatican City and Venezuela.

Citizens of countries not listed above may need a visa. One should apply for a visa in person at the Belgian embassy or consulate which is competent for ones country of residence. If applying for a short stay visa (up to 90 days), some countries offer the possibility of having the visa application treated by another Schengen country that Belgium has concluded a representation agreement with. More information about Visa Requirements can be found on the website below:

2.27 Medals

Airspace Indoor Skydiving will choose to provide their own award medals conforming to the FAI specifications, in accordance with IPC Medal requirements.

2.28 Anti-Doping Requirements

Airspace Indoor Skydiving will not include anti-doping tests for the event. However should anti-doping testing become a requirement Airspace Indoor Skydiving agrees to provide appropriate facilities.

2.30 Date of Post Event Report

Suggestion for the post event report is Monday 29th April 2019, one week after the end of the competition.

2.31 Additional Information

i) Opening and Closing Ceremonies

Both opening and closing ceremonies will be held on site to allow the organizers full control over the quality of the event and to avoid unnecessary transportation of people.

The opening ceremony will be a spectacular happening to set the mood for the upcoming event were the athletes will be introduced and everyone welcomed. The ceremony will be retailed to the venue, that will be decorated and prepped for the action. The agenda will be carefully planned to run smoothly and will include both speeches and spectacular entertainment. The closing ceremony and award ceremony will be planned and executed with

OBJET : support to Airspace S.A. to host the next edition of the World Indoor Skydiving Championship in Charleroi

The following letter is written with the intent to show our support to Airspace Indoor Skydiving Charleroi in their process to host the next edition of the World Indoor skydiving Championship.

Hosted by Airspace S.A., this Championship will be a great opportunity to create exposure in Charleroi, in our province and in Belgium about this new sanctioned sport that is bodyflight. Too few people know that thousands of people around the world have adopted this as a sport and can train to compete in National and International events. This will be a unique way, along with a solid marketing plan, to show the Belgian population that this new sport is accessible to all, in Charleroi.

The Maison du Tourisme du Pays de Charleroi asbl has the role of promoting touristic sites which are located on its territory but is also supporting local businesses and initiatives which can bring attractiveness and interest to our city Charleroi. The World Indoor Skydiving Championship is surely one of these! This is why we truly support Airspace S.A. and we ask you to consider them to host the WISC’s next edition.

Anne-Marie BOECKAERT
Présidente
