## FAI Electric Flight World Cup 2019

### Class F5B ELECTRIC MULTITASK GLIDERS

2019 we had eight World Cup events with total 49 competitors of 11 countries. Many competitors used telemetry systems with varios, as allowed since 2015. I cannot see, that they had much better flights than competitors without that devices.

World Cup Coordinator was again Wolfgang Schulz GER.  
Thank you very much.
