Competition Director's Report  
to the FAI-GAC Meeting – Paris, 11<sup>th</sup> Nov. 2017

*R. Kunschitz*

Four years after the presentation of the preliminary bid in Cordoba, it's now time to give a report of a successfully held world championship.

Spitzerberg 2017

The airfield was not absolutely perfect,  
but offered almost everything.

First of all, I really would like to express my thanks  
to everyone involved in organization  
and execution of the event

Spitzerberg 2017

**Hot but luckily without thunderstorms, we were happy having had no trouble to follow the planned schedule.**

Flying Championship  
Spitzerberg 2017

Extremely high temperature caused some technical problems. Machines as well as humans were at the edge. Thanks to all participants and helpers to survive these unusual met conditions!

dead batteries,  
melted logger

Thanks to all participants and helpers surviving such unusual met condition using very different ways 😊

FIND THE DIFFERENCE

TEAM AUSTRIA

TEAM NORWAY

Flying Championship  
Spitzerberg 2017

The landing day went quiet and smooth.  
I was happy about disciplined pilots.  
Even „big brother“ Austrian Airline watched us,  
without disturbing our traffic 😊

23<sup>rd</sup> FAI World Precision Flying Championship  
F Spitzerberg 2017

Although having not as many options as actually planned, the task setting in limited airspace was worth to be called a real world championship.

Flying Championship  
Spitzerberg 2017

There were some complaints during the landing training, which could be discussed to avoid discomfort in future competitions.

Complaints and protests about handling penalties for exceeding the minimum flight altitude in competition also should end up in clearer rules for future scoring.

I know, not everybody was happy about some decisions, but at the end of the day the Chief Judge as well as the Jury tried to do their best.

Congratulations, not only to all the winners, but also to every participating pilot, team manager and supporter! We had fun together 😊 😊 😊

My conclusion after being participant for over more than „15“ years in competition, while organising just „1“ event:  
Being on ground is much more exhausting than being up in the air fulfilling all tasks!

But, to organise an event, is a great experience, which I really would not miss.

*H. Kunschitz*
