

FEDERATION AERONAUTIQUE INTERNATIONALE

NOMINATION FORM

CIAM AEROMODELLING SCHOLARSHIP

(for applicants from the age of 16 up to the age of 21 in the year of nomination)

From NAC : Balgarski Natsionalen Aero Klub _____

Date : 11.11.2019

Address : bul. Evlogi Georgiev 95 _____

Country : Bulgaria

1000 Sofia

(only one person from a country may be nominated annually by that candidate's National Airport Control)

(submitted nominations must include an electronic format photograph of the nominee)

Email address: slazarkov@gmail.com

Name of Nominee : **Kristina Ivanova**

Date of birth: **16.08.2002**

Address : Sevlievo, Bulgaria
NBH Atanas Moskov №8B

Email address: kristinaivan1608@gmail.com

Scholastic Accomplishments and Educational Plans (please list & continue on a separate sheet if necessary):

I am a penultimate year student in a class focusing on German language in the high school in my home town.

Since I was in 1st grade, I have always finished the school year with excellent marks and many Certificates of Participation from different School and National Olympiads, but the academic fields in which I am interested the most are Language and Natural Science. These are also the academic fields where my highest scholastic accomplishments are. Last year, three of my classmates and I developed a chemistry board game named "Chemistry for Everyone", which aims to help students with learning difficulties learn Chemistry in a fun and easy way. The game brought us the jury's prize in the 7th National Science Festival "Science on Stage". Last academic year, I also made it through to the 2nd stage of two Olympiads - the Bulgarian Language Olympiad and the Biology one.

In the near future, my educational plans are to take the IELTS certificate to prove my English knowledge and DSD certificate to prove my knowledge in German. I am also planning to continue my education and go to university abroad (either in the Netherlands or in Austria) where I want to study Genetics.

Aeromodelling Achievements up to the age of 21 (for example World or Continental Championships, National Championships, World Cups, Records, Technical Innovations. In the case of competitions, include the name, date, and location of each competition, the class and the position achieved.) (Please list & continue on a separate sheet if necessary.)

Space Models World Cup – 2018 – S9A – 1st place

European Championships for Space Models – 23th Aug. 2015 – Lviv, Ukraine – S3A – 2nd place

European Championships for Space Models – 24th Aug. 2015 – Lviv, Ukraine – S9A – 2nd place

World Championships for Space Models – 29th Jul. 2018 – Kruszyń, Poland – S4A – 3rd place

F1H Eurochallenge – 2016 – HEC-B youth – 1st place

National Championships for Space Models – Kaspichan, Bulgaria – 4th May 2019 – S6A – 3rd place

National Championships for Space Models for juniors – Levski, Bulgaria – 7th Jul. 2019 – S4A juniors – 3rd place

National Championships for Space Models for juniors – Levski, Bulgaria – 7th Jul. 2019 – S3A juniors – 3rd place

National Championships for Free Flight Models – Dupnitsa, Bulgaria – 15th Sep. 2019 – F1B – 1st place

National Championships for Free Flight Models – Levski, Bulgaria – 6th – 8th Sep 2013 – F1H juniors – 1st place

National Championships for Space Models – Gorna Oriahovitsa, Bulgaria – 22nd – 24th June 2012 – S6A – 2nd place
National Championships for Free Flight Models – Gorna Oriahovitsa, Bulgaria – 13th 14th Oct. 2012 – P-30 – 2nd place
Sofia cup – Levski, Bulgaria – 1st May 2012 – F1H – 1st place

Personal Statement: What role did Aeromodelling play in your life and what are your aspirations for the future? (One page to be written in the Nominee's own hand and attached to this form. If written in a language other than English, then please attach a typed translation as well as the hand-written original.)

NAC Signature :

President or Secretary General of nominating FAI National Airsport Control

(must be submitted to the FAI Office by November 15)

I have been doing Aeromodelling since I was 10 years old, and I can say without hesitation that all the competitions in which I took part, all the people whom I met there and all the experiences, whether good or bad, that I have been through, have taught me important lessons and have had a big influence on who I am now as a person.

One of the things for which I am most grateful to Aeromodelling is the people whom I met and the friendships we created. After almost 8 years of participating in different competitions, I regard them not as rivals, but as a second family who is always ready to help me and give me advice when needed. However, as a girl doing a sport that is commonly considered to be a "male sport", it has not always been easy for me to keep on practicing it because I have often been underestimated. Thanks to the people who believed in me and did their best to help me, I realized that gender does not matter as long as what you do brings you joy and a sense of accomplishment.

My aspirations related to Aeromodelling are to perform well on the upcoming competitions. Otherwise, the goals I have in educational and professional aspect are not related to Aeromodelling. I want to be a geneticist one day and that is why I plan to study Genetics at university, either in Austria or in the Netherlands.

To conclude, I would say that although Aeromodelling will not be part of my professional path, I will definitely continue practicing it in my free time.
