

ANNEX A.2m
FEDERATION AERONAUTIQUE INTERNATIONALE
NOMINATION FORM
CIAM AEROMODELLING SCHOLARSHIP

(for applicants from the age of 16 up to the age of 21 in the year of nomination)

From NAC : Model Union of Slovak Republic _____ Date : 12.11.2016 _____

Address : Trhovisko 10 _____ Country : Slovak Republic _____

929 01 Dunajska Streda _____

(only one person from a country may be nominated annually by that candidate's National Airport Control)

(submitted nominations must include an electronic format photograph of the nominee)

Name of Nominee : Michal Žitňan jr. _____ Date of birth: 7.3.2000 _____

Address : SNP 1431/57 _____

914 01 Trenčianska Teplá _____

Slovak Republic _____

Scholastic Accomplishments and Educational Plans (please list & continue on a separate sheet if necessary):

After graduating from elementary school with very good grades, Michal continued his studies at the technical high school in Dubnica nad Váhom, where his main field of study is devoted to mechatronics. Following his results, there is a good chance that he will continue his studies at a Technical University.

Aeromodelling Achievements up to the age of 21 (for example World or Continental Championships, National Championships, World Cups, Records, Technical Innovations. In the case of competitions, include the name, date, and location of each competition, the class and the position achieved.) (Please list & continue on a separate sheet if necessary.)

World Championships for Space Models, 22nd -30th August 2016, Lviv, Ukraine:

Individual results:

Best junior competitor

1st place S5B

1st place S1A

2nd place S6A

Team results:

1st place S5B

1st place S1A

1st place S6A

2nd place S4A

World Championship for Space Models, 22nd -30th August 2014, Kaspichan, Bulgaria:

Team results:

3rd place S4A

European Championships for Space Models, 21st -28th August 2015, Lviv, Ukraine:

Individual results:

Best junior competitor

1st place S3A

2nd place S1A

Team results:

1st place S1A

1st place S3A

2nd place S4A

2nd place S6A

World Cup for Space Models, Season 2016:

Final placing:

World cup winner S6A

4th place S4A

Individual competitions:

38th Ljubljana Cup, 07-09.10., Kamnik, Slovenia:

1st place S4A

3rd place S3A

Andritz Cup, 10-12.06., Humenne, Slovak Rep.:

1st place S4A

2nd-3rd (tide) place S6A

World Cup in Cracow, 03-06.06., Krakow, Poland.:

3rd place S9A

World Cup Krupka, 20-22.05., Krupka, Czech Rep.:

1st place S4A

3rd place S3A

NAC Signature :

President or Secretary General of nominating FAI National Airsport Control

(must be submitted to the FAI Office by November 15)

My life with space modeling

Space modeling is a natural part of my life since early childhood. My dad used to take me with him for nearly every tournament. I started with collecting burn out and also was fascinated with firing engines at starts. Later I came to dad's workroom, which used to smell of glues and paints. It was my father who taught me how to make models from a simple rocket models to the more difficult ones. Without my dad I will never be able to get to the space modeling, I owe him for my achievements.

Space modeling has also shaped me as a human. It has brought me a lot of patience, because one fast glued piece of model can really damage hours of hard working in my work room.

On the other hand, to be able to accept a failure and to be humble that is also space modeling for me. I can have the best model, I can begin with best possible start and then it occurs some descending stream and then I am early landing, without good standing.

In my opinion space modeling represents an active movement, mainly when I have to run some kilometers for my model so I can bring it back for another run.

Space modeling represents for me also a lot of new friendships, exchange of useful information with model modellers from around the world and how to improve my English or Russian language skills.

It's really difficult to describe how happy proud I felt while I was standing on the podium listening to the hymn of my country as this year's World Champion and the best junior in the World in Space modeling.

Michal Žitňan junior
