## FAI CIVL

### Propose revision of FAI Sporting Code Section 7 Common

Dear CIVL,

FKA(NAC of South Korea) kindly propose to revision of FAI Sporting Code Section 7 Common.

The current Sporting Code Section 7 Common 12.4, If an organizer of a 2<sup>nd</sup> Category event is found not to have checked each competitor's FAI Sporting Licence a warning letter will be sent by CIVL to the NAC for the first offence and for any subsequent offences a financial penalty will be imposed. However, this regulation has contradictory parts.

According to the Sporting Code Section 7 Common 12.6.1, Organizer of 2<sup>nd</sup> Category events must provide official results to the CIVL Competition Coordinator within 7 days of the end of the competition.

It means that organizer only provides the results to CIVL, not to NAC.

Since the organizer only provides the results to CIVL, the NAC has no way of checking the official results. However, the regulation states that if CIVL does not receive the results, giving a warning letter to NAC. It doesn't make sense.

In order to solve the contradiction of regulations, FKA kindly suggests replacing the "Organizer of 2<sup>nd</sup> Category events must provide official results to the CIVL Competition Coordinator " in Regulation 12.6.1 with "to the CIVL Competition Coordinator **through each NAC** ".

NAC of South Korea kindly ask for your acceptance.

We are looking forward to hearing from you soon.

Yours sincerely

President  
Youngduck LEE
