Annex 3 -

14 CIVL Proposal to FAI Executive Board and CASI

Annex 4 - [2016 CIVL Plenary Proposal to EB and CASI](#)

Additional Annex from FAI Executive Board to follow

15 Item from the EB, for further discussion:

1) Gyrocopters SC GS 2.2

Gyrocopters are covered in GS SC 2.2 both in SC9 and SC10. This overlaps needs to be clarified and resolved.

2) FAI Sporting License SC GS 3 - International Officials SC GS 5.4.1

FAI Sporting Licenses are in several countries quite expensive. As some ASC request a license for officials this can put financial burdens on their volunteers. That is why ASCs are in favor of an FAI issued document for their official instead of the FAI Sporting License. This official legitimisation should also be a pre-requisite to allowing access to the Sporting License databases (SL) and to use and sign-off results in the CMS (Competition Management System).

3) Official Observers SC GS 5.2

The recent developments showed that the definition of the role of the OO is not sufficient. One topic related to the fact that the determination of a performance is regulated by the ASC, and the OO should record and confirm the performance, based on the data provided that should be as defined by the ASC previous to the performance. The role of the OO needs to be specified with respect to this. References are: GS SC 2.4.; 5.2.1.
