

ANNEX A.2m
FEDERATION AERONAUTIQUE INTERNATIONALE
NOMINATION FORM
CIAM AEROMODELLING SCHOLARSHIP
(for applicants up to the age of 21 in the year of nomination)

From NAC: Aeronautical Federation of Macedonia
Address: Miroslav Krlezha br.1 Skopje
1000 Republic of Macedonia

Date: 11/11/2013
Country: Macedonia
(only one person from a country may be nominated annually by that candidate's National Airsport Control)

Name of Nominee: Bojan Dimeski Date of birth: 13/09/1997

Address: Kej 9th Septemvri br.69 – Prilep 7500 Republic of Macedonia

Scholastic Accomplishments and Educational Plans (please list & continue on a separate sheet if necessary):

- I have been an excellent student with a decent behavior
- I have worked in projects for the environment protection - Volvo Adventure - 2012 (Sweden) - organized by UNEP and VOLVO CAR CORPORATION - 4th place
- One after another 4 years State Karate champion
- 3rd place Nanotechnology (Project into which I have used my knowledge of aeromodelling and composite materials) organized by the Technology-Metallurgical faculty, Skopje
- A member of national Karate and Free flight representation
 - As an aeromodellar I would like my profession to continue in a direction of the aviation. The received knowledge I can use in a wide life range objectives. Because in my country there is not a choice of objective institutions from the aviation, I seek support in my country and out of it. I have aspirations for the flight control, it is my challenge, and after finishing my secondary school I see myself in this area.

Aeromodelling Achievements up to the age of 21 (for example World or Continental Championships, National Championships, World Cups, Records, Technical Innovations. In case of competitions, include the name, date and location of each competition, the class and the position achieved) (please list & continue on a separate sheet if necessary)

- Macedonian state Championship – 16.06.2013 – Prilep, Macedonia – F1-A category – 1st place
- World cup Prilep – 28.09.2013 – Prilep, Macedonia – F1-A/J category – 3rd place

Personal Statement: What role did Aeromodelling play in your life and what are your aspirations for the future? (One page to be written in the Nominee's own hand and attached to this form. If written in a language other than English, then please attach a typed translation as well as the hand-written original.)

Aeromodelling caused a feeling for my future professional orientation. As a sport it is widely developed throughout the world.

In it unites knowledge of many other techniques, technologies and physical ability, metrology knowledge, aerodynamics, and above all good model manufacture.

All of these individually helped me built as a person who will think differently from the others. Aeromodelling helped me find a direction in my life and has been my leader in moments when I hesitated about my future profession. My love and affection towards it has been of great significance for me. My friendships throughout the world will remain my best qualities.

Although the electronics develops itself with a high speed and finds its place into aeromodelling, I try to hold a place with this as well. Unfortunately this sport in my country is not financially supported by the appropriate institutions. This sport is changed by the innovations made. Of course, all of this does not stop me to continue taking up aeromodelling, on the contrary, I will continue taking up with it and I hope that one day this sport will be watched at the Olympic Games as an equal sport among the others with lots of young and hopeful aeromodellers.

NAC Signature.

President or Secretary General of nominating FAI National Airsport Control
(must be submitted to the FAI Office by November 15)
