APPENDIX to the agenda

Use of Gyros and similar devices or systems wording for CGR.

Following suggestions from various Subcommittee Chairman the draft wording to be included in the CIAM General Rules is shown here. The final wording has to be approved by the December 2019 Bureau for inclusion in the CGR for 2020.

Any airborne device or function that uses sensors to actuate any control surface is prohibited and must neither be installed nor used, unless specifically allowed in the class rules. A Spread Spectrum technology receiver that transmits information back to the pilot-operated transmitter, is not considered to be a prohibited device, provided that the only information that is transmitted is for the safe operation of the model aircraft.
