Dear Konrad,

Re: Additional WAG Payments to CIG members.

I write in preparation for the CIG plenary meeting, I have had discussions with members of my NAC ,who are also members of other ASC's. They have asked me to explain the process CIG adopted in awarding additional WAG payments to Commission members.

I explained that you had advised the Commission at the plenary meeting in March 2016 that it was at the express wish of the LOC Dubai to make these payments to the individuals concerned. Based on that statement alone made by you, the Commission agreed to the payments for amounts you decided upon.

Referring to the Bureau minutes, there was no discussion minuted on this subject and as such I cannot provide any evidence to support your statement and now find myself in a position of defending your good name without any supporting documentation.

Could I ask for you to simply provide a copy of the document which clearly states, as you informed the Plenary meeting in March 2016, the additional WAG payments made to some Commission members be made at the express wish of the LOC of WAG 2015.

Konrad, as you are aware it became apparent during last years plenary that the past President Mr David Hamilton (NZ) expressed a serious lack of knowledge of the rules and my concern is that a request could be made for the funds to be returned if the payments have been made without following the correct procedures and reflect badly on the Bureau members at that time.

Regards

Your sincerely,

David Monks
