

CIVL 2024 PLENARY – ANNEXE 31
SAFETY OFFICER PROPOSAL – NO INCIDENT DECLARATION

Fabio Loro

Background

The safety in aeronautical activities passes through incident analysis. To have good results we need as much data as possible. At the moment the data collection about incident is very poor. Elena is improving EMS to make this operation very easy but we need to push more on organizers to accomplish their duty: to fill the incident database

Proposal

New Section 7 Common

Is added in 12.6.1

Organizer of 2nd category events who send results with no reported incidents, must sign a declaration stating that no incidents happened during the competition

Is added in 12.8

Within one week from the end of the event Safety Director (or Meet Director if SF is missing) must submit all the incident reports through the civlcomps.org dedicated form.
