

CIVL 2024 PLENARY – ANNEXE 38F
PROPOSAL - FLYING ORDER BASED ON WPRS RANKING

NAC Slovenia

Background

To have more equal progress during the accuracy competition and competitors with similar level would effectively fly in similar conditions we believe that it makes sense to introduce a flying order based on revers WPRS ranking. In that way expected top ranked pilot would fly more or less together in similar condition.

Proposal

FAI Sporting Code, Accuracy Section 7c - 1st May 2023

I. Current rule

3.2.2.1 Allocation of Flying Order

Pilots should take-off in a scheduled order. At registration, the Team Leader will confirm the team and the flying order of his team members. The team members will be allocated a flying order number 1, 2, 3 etc. At the start of the competition, teams will be drawn at random to determine the team flying order. Then, all the number 1s from each team fly first, followed by number 2s, 3s etc. Each competitor will then be given their individual contestant number.

Recommendation:

3.2.2.1 Allocation of Flying Order

3.2.2.1.1. Cat 1.

3.2.2.1.2. Cat.2

Pilots should take-off in a scheduled order. At registration, the Team Leader will confirm the team members. Pilots will be assigned a flying order number based on their WPRS ranking. Pilot with a worst WPRS ranking will start first in the round. If some pilots have same ranking, they will be sorted alphabetically. Top 10 pilots will fly last in the round and will draw their start number between 1 and 10.

Organisers can adopt this rule or can use any other way of determining flying order such as, but not limited:

- Random order

- By reverse order based on WPRS ranking
 - ...

Summary of activity during 2023

We already tried it out in some events, and during all of them it was really a great experience.
