George U. Carneal, *General Counsel*

January 18, 2005

Dear CIVL Delegates:

On behalf of the membership of the National Aeronautic Association, it is my genuine pleasure to invite you to the USA for the 16<sup>th</sup> FAI World Hang Gliding Championships in 2007.

The city of Big Spring, Texas is the proposed venue. As you may know, Texas is well known for its great flying conditions, and Big Spring, in the heart of wide-open West Texas, is an ideal location. Numerous hang gliding World Record flights have originated in this area. You will also be pleased to know that some of the World's best hang gliding competition organizers and technical experts have joined forces to ensure that the 2007 Championships will be a huge success.

We appreciate your careful consideration of this bid and very much look forward to the opportunity of welcoming you to the USA in 2007!

Sincerely,

David L. Ivey  
President and CEO
