Option 1	X								
Option 2									
Option 3									
Local rules or deviations from Sporting Code	<ul style="list-style-type: none"> No judge (and no always helper) was standing next or behind the pilots during their runs (as mentioned in §8.3 and §7 of F3U code), but only DVR were available/used. Members of the FAI jury observed some mistakes and had to disqualify themselves these pilots. FAI Jury has to raise awareness, as for example on flying drones that were no more in the same conditions as at the start of the run, because of battery no more attached to the drone itself (only staying by the battery connector). Can become a danger as pilot can feel unexpected reactions of its drone. 								
Unusual organisation occurrences (withdrawal of a FAI judge, interruption of the event or delays,, incident or accident,	<p>Only qualifications stages on Saturday with some small intervals for the jury to check the videos. Two pilots crossed the safety line, their times are invalidated.</p> <p>A detail to be traced back to the FAI: If a license is issued directly by the FAI, one does not find which country is the pilot, it is a bit embarrassing.</p> <p><u>Competition aborted on Sunday due to strong wind conditions</u></p>								
Complaint or protests (mention in case the number)	none
