2016 5.4.1. If, after the viewings are completed, and within fifteen seconds of the knowledge of the result, the Chief Judge, Event Judge or any Judge on the panel considers that an absolutely incorrect assessment has occurred, the Chief Judge or Event Judge will direct that only that part(s) of the jump in question be reviewed at reduced speed in accordance with 5.4. If the review results in a **minimum four to one judge** decision by the Judges on the part(s) of the performance in question, the score for the jump will be adjusted accordingly. Only one review is permitted for each jump.

*Identical change in the Indoor rule 5.3.1- although this was agreed by the Plenary, the use of only 3 judges in indoor competitions means a 2-1 decision would result in one judge making the ultimate decision which is contrary to the intention or the wish of the Plenary - **it has been left as a unanimous decision.***

Chapter 4: General Rules

~~2015 4.6.4. If a team member makes contact with the floor screen or the tunnel walls and the majority of the judging panel deem this contact to be intentional, one point will be deducted from the aggregate points scored in accordance with 4.6.1 for each such contact made.~~

Experience has shown that contact with the wall/floor is disruptive to the team and in fact slows down the team performance so there is no need for an additional point score penalty.

Chapter 5: Judging

2015 5.3. Viewings/Review of the Video Evidence

The Judges will watch the video evidence of each performance (1) one time at normal speed to determine points in time. The moment of freeze frame at the end of working time will be determined at the first viewing. If a judgement call occurs, a second viewing of the performance will be conducted at normal or reduced speed between ~~70-90~~ percent of normal speed. At the request of the Event Judge a (3rd) third view of part(s) of the performance can be conducted at normal or reduced speed. The speed of the second- and third viewings (normal or reduced) will be determined by the Event Judge. The Chief Judge will decide prior to the start of the Competition the percentage of reduced speed to be used for the different Events. The freeze frame from the first viewing will be applied on each viewing.
