

Forecast Long Range Rally

01. - 05. July 2015 – Memorial Tourist Flight Hans Gutmann 2015

Considering the low rate of participation of GAC pilots, I worked out a new concept for 2015 for the “Hans Gutmann Memorial Tourist Rally” to reduce the costs.

Flying time will be reduced, less airfields will be covered. The aim is to fly to airfields where low or no landing and handling fees will have to be paid. We will stay in 2 hotels preferably located on the airfield at the main destinations.

The program foresees an arrival from all over Europe in Siofok-Killiti (LHSK) located on the Lake Balaton or Jakabszallas (LHJK) in Hungary. Hotel is on the airfield or nearby.

No pilots, even those coming from north or south of Europe will have to cross the Alps. On the following day we will proceed to Slovenij-Gradec (HQ), which will be the main base for the rally. Hotel plus 2 restaurants will be available on the airfield as well as hangars, a pilot bar, touristic organisation and tennis fields. No landing and handling fees.

For info on our HQ (Headquarter of the Rally) see: www.aerodrom-sg.si .

Daytrips (see picture below) will be organized to Austria, Slovenia, Croatia, Italy, Hungary, Slovakia etc., which allows us to return to the same hotel every day.

In addition touristic and flying activities will be organized. Each evening festivities will be organized, including meals and drinks. Hans would certainly appreciate as he enjoyed such activities.
