

APPROVED TECHNICAL EQUIPMENT

The following technical equipment was approved by GAC for use during FAI, GAC Championships

Technical equipment	System provided by	Authorized for	Scoring source
Landing Scoring System	Switzerland	PF / RF	pressure sensor
Landing Scoring System	Germany	PF / RF	microphone
Landing Scoring System	Hungary	PF / RF	pressure sensor
Landing Scoring System	South Africa	/ RF	Sensor ("Bingo" System)
Landing Scoring System	Italy	/ RF	Video/Foto

When visual/manual scoring is used, the landings have to be documented on video.

(No specific requirement is set up for the video equipment, however, it is recommended that the recording is taken with a shutter setting between 1/200 and 1/1000. Reviewing should be possible in "still-picture"/single frame viewing and slow motion mode.

A digital video camera is preferable).

Printing Stop Watches	Austrian Aero Club (FAI-GAC)	PF / RF	12 Seiko, S129
Printing Stop Watches	Hungarian Aero Club	PF / RF	5 Heuer
Printing Stop Watches	Germany Aero Club	PF / RF	3 Heuer

See for approved GNSS Flight Recorders in Sporting Code Section 2, Annex 4, attachment 1
