## ATHLETE FEEDBACK

I have received your letter and there is no limit to my outrage.

We are speaking with you as deaf to the blind.

You write memorized phrases to achieve the situation that you need in spite of the stupidity of the situation itself.

I absolutely do not care, I emphasize once again, the attitude of WADA and all the tests.

But your attitude towards ..... in this regard makes me angry.

You do not draw conclusions, and go to your goal, which will kill the entire ..... in the end.

What you do in regards to ..... is outrageous and does not help the athletes at all and does not protect them from anything.

If you have a little intelligence, you will definitely think about this situation and stop treating adults as naughty schoolchildren.
