

## ENVCOM REPORT

Bernald Smith

As usual, this report states that the next FAI EnvCom meeting is too late for a written report to meet the early deadline required for written reports for your meeting. I do plan to attend; it's scheduled for 17Jan09 in Frankfurt, Germany. I will distribute directly to you, either via email, or at your meeting, a report about it and may ask for a few minutes at your meeting for some further comments. The Environmental Management System for FAI Organized Flying Sites which we submitted was approved by FAI at its GC last fall, for which see: [http://www.fai.org/environment/system/files/FAI\\_EMS\\_v4.pdf](http://www.fai.org/environment/system/files/FAI_EMS_v4.pdf)

I need to get this into the secretary. I plan to produce some more material to dazzle you with which I will email to you directly or hand out as written material at your Lausanne meeting giving more insight as to what I do representing IGC. Among other things, it will give some detail about major issues confronting interoperability and interchangeability such as different reference frames, different time lines, and signal broadcast differences which we discussed at ICG.

-end of report-
