9. Tourism info

Varshets is known as the City of Health and rightfully so. Even though it doesn't hold many cultural sights, it breathes fresh air and lives in the beautiful surroundings of the mountains.

Mineral springs, hiking paths, peaks, waterfalls, romantic boulevards and monasteries – that's what your options hold, and it makes it perfect for a recharge after a day of meetings and discussions.

If you are interested to visit Montana, the Dropzone of the Aeroclub or any other sights nearby, we would be happy to organize a trip for you,

whenever time permits - also a possibility for the days before and after the meeting. We'll be happy to arrange something for you.

If you have any further questions, please do not hesitate to contact us at any time.
