Organizers will provide 2 options for all the participants. You need to choose in advance only one of them, so we can do our best for every one of you.

1. Kremlin: outside and inside.

The Moscow Kremlin is considered to be a symbol of the Russian statehood. The Kremlin hill became the main sightseeing of Moscow. The architectural ensemble “The Moscow Kremlin and Red Square” is included into the UNESCO List of World Cultural and Natural Heritage.

The history of organizing and developing the museum institution in the Moscow Kremlin covers almost three hundred years and involves periods of prosperity and rapid development of museum and research activities, periods of heroic struggle for saving national treasure as well as periods of stagnation, followed by revival.

2. An unforgettable Moscow.

We will start from the Tretyakov Gallery, the main museum of Russian national art, reflecting its unique contribution to world culture. Then the route will include the Cathedral of Christ the Saviour (the largest cathedral of the Russian Orthodox Church), Red Square, St. Basil's Cathedral and the Sofia Embankment and few main streets and squares.
