Hosting proposals shall be made in writing by a FAI Member or its Delegate, must follow the format of Annex 6, must provide complete details in respect of the items listed therein and must include a signed Hosting Agreement (see Appendix to Annex 6) which will be signed by the IPC when the hosting proposal is accepted. Delegates, FAI Members or National Parachuting Associations affiliated with FAI Members who wish to host an IPC Plenary Meeting away from FAI Headquarters must submit a proposal to the IPC in sufficient time for inclusion in the Agenda for an IPC Plenary meeting prior to the meeting subject to the hosting proposal, so that a decision on the proposal can be made no later than the Plenary meeting held immediately prior to the meeting subject to the hosting proposal.

Before making a proposal, the potential Host should be fully familiar with the provisions of paragraphs 3.2, 3.4.2 and 3.4.3 of these Internal Regulations.

When organizing an IPC Plenary Meeting away from FAI Headquarters, there are many requirements to be satisfied and prepared for. These include, but are not limited to, communication bulletins, airport pickup and delivery service, accommodation arrangements, local transportation, meeting rooms, secretarial services, equipment for document preparation, and detailed information on international travel connections to the meeting site.

The main requirements to hold an IPC Plenary Meeting are:

### 1 Main Meeting Room

This room must accommodate up to 120 persons, have desktops or other suitable writing surface and will be used to conduct the Open Meetings held on the first three days and the Plenary Meeting on the last two days. This room must be equipped with a projector, a large projector screen, and an adequate sound system with sufficient microphones for comments from the floor.

### 2 Additional Meeting Rooms

Three additional rooms, which must accommodate up to 15 persons, must be provided and be available throughout the meeting period for committees and working groups to meet and work in. They will sometimes be needed during evenings and sometimes until late at night

### 3 Technical Workroom

This workroom should have at least one computer and a colour network printer for use by members of the committees and working groups. The computers should be PCs outfitted with updated hardware and software, including MS Word, Excel, and Adobe Acrobat. The printers should be laser jets. The computer must be connected to the Internet.

### 4 Internet Connections

The main meeting room, all auxiliary meeting rooms and the technical workroom must all provide free and secured Wireless Internet connection and access. The Organiser must make sure that the Internet Connection has sufficient capacity to provide simultaneous and concurrent log-on access to all persons attending any meeting.

### 5 Printing Room

This room may be combined with the Technical Room. It should have one large photocopier, which must have automatic feed, preferably with capability for duplex printing, and must have a large-capacity collation function and one smaller photocopier. A minimum of 20 reams of A4 paper should be provided, with a source for additional paper on immediate stand-by. This room will also need to be supplied with typical office supplies, such as stapling machines, staple removers, scissors, glue, pens, etc.

### 6 Support Personnel

Non-technical support personnel will be needed for registration, secretarial support, etc. Technical support personnel will be needed for operating the technical equipment used during the meetings (projectors, video players, microphones, etc.) Technical support must be on 24-hour call for maintaining and repairing within an acceptable short period of time all computers, any network used, the paragraph 4 internet connection, and any electronic and office equipment.

## 7 Accommodation

If the meeting rooms are in a hotel, the hotel must be large enough to accommodate and cater for the whole group including accompanying persons and media (90–130 persons).

If the meeting rooms are in a Congress Pavilion or other place separate from the accommodation, it should be within walking distance or a shuttle bus should be provided. It would be appropriate to provide a choice of three hotels.

If the venue is a state sport centre with budget accommodation, normally all participants will stay at this facility.

## 8 Meals

Breakfast, lunch and coffee breaks must be included in the accommodation package offered to Delegates and Registered Observers. Depending on location, the evening meal may be included but is at the option of the host.

Accompanying Persons will only be provided with breakfast and may be provided with the evening meal, but only if it is offered to the Delegates.

Any local transportation arrangements must be described or the proposal must state that meeting participants are responsible for their own local transportation.

The meeting participants are all from different nations, therefore many of them will not speak the local language. If possible, either an FAI Member representative or a well-briefed information service person should meet Delegates at the international arrival airport to direct them to the source of local transport which will take them to the accommodation and/or meeting venue.

The accommodation packages offered must be for up to 5 nights (with a minimum of 2 nights) for Delegates, Alternate Delegates and Appointed Observers, thereby making it possible for them to attend all or part of the scheduled meetings. The package period commences the evening before the start of the official open committee meetings and finishes with lunch on the fifth day (when the Plenary Meeting finishes). The accommodation/registration packages should have a fee per person for sharing a double room and a fee for a single room.

There must be an accommodation package offered for Accompanying Persons, who do not attend the meetings and do not take lunch or coffee breaks.

Information must be provided on the cost of hotel rooms for those arriving before the registration period or leaving after this.

## 11 Bulletin

The Organiser of an IPC Plenary Meeting must issue an Information Bulletin no later than 120 days before the start of the Plenary Meeting. The information in this Bulletin may not differ from the accepted bid unless the IPC Bureau has given approval for any changes. The Bulletin must provide full and complete information relevant to the Plenary Meeting, including transport arrangements, registration, bank details, payment dates, etc. The Bulletin must be submitted, at least 30 days before the issue date, to the IPC Bureau for review and correction if necessary and, having received IPC Bureau approval, shall be immediately posted on the FAI/IPC web site, after which it may be posted on the Organiser's own web site.

## 12 Financial Matters

The registration fee will usually be paid by wire transfer to a bank. However as some countries may have problems with wire transfers, payment by credit card, money order or cash should be made available. The proposal may impose a payment deadline, after which a late payment fee may be levied. The proposal must state exactly what payment methods are allowed.

## 13 Hosting Agreement

As required by 3.4.2 of these Internal Regulations, a Hosting Agreement must be prepared and signed. This will be completed if the hosting proposal is accepted; following which Euro 500 must be paid to FAI/IPC as a refundable deposit.
