1. The document may be used for information only and may not be exploited for commercial purposes.
2. Any copy of this document or portion thereof must include this copyright notice.
3. Regulations applicable to air law, air traffic and control in the respective countries are reserved in any event. They must be observed and, where applicable, take precedence over any sport regulations.

All international sporting events organised wholly or partly under the rules of the Fédération Aéronautique Internationale (FAI) Sporting Code are termed FAI International Sporting Events. Under the FAI Statutes, FAI owns and controls all rights relating to FAI International Sporting Events. FAI Members shall, within their national territories, enforce FAI ownership of FAI International Sporting Events and require them to be registered in the FAI Sporting Calendar.

An event organiser who wishes to exploit rights to any commercial activity at such events shall seek prior agreement with FAI. The rights owned by FAI which may, by agreement, be transferred to event organisers include, but are not limited to advertising at or for FAI events, use of the event name or logo for merchandising purposes and use of any sound, image, program and/or data, whether recorded electronically or otherwise or transmitted in real time. This includes specifically all rights to the use of any material, electronic or other, including software, that forms part of any method or system for judging, scoring, performance evaluation or information utilised in any FAI International Sporting Event.

Each FAI Air Sport Commission may negotiate agreements, with FAI Members or other entities authorised by the appropriate FAI Member, for the transfer of all or parts of the rights to any FAI International Sporting Event (except World Air Games events) in the discipline, for which it is responsible or waive the rights. Any such agreement or waiver, after approval by the appropriate Air Sport Commission President, shall be signed by FAI Officers.

Any person or legal entity that accepts responsibility for organising an FAI Sporting Event, whether or not by written agreement, in doing so also accepts the proprietary rights of FAI as stated above. Where no transfer of rights has been agreed in writing, FAI shall retain all rights to the event. Regardless of any agreement or transfer of rights, FAI shall have, free of charge for its own archival and/or promotional use, full access to any sound and/or visual images of any FAI Sporting Event. The FAI also reserves the right to arrange at its own expense for any and all parts of any event to be recorded.
Amended versions of the Sporting Code General Section (GS) are published by the FAI Secretariat, acting for the Air Sport General Commission.

Introduction to
The Sporting Code of the FAI

The Fédération Aéronautique Internationale (FAI), is a world organisation that is concerned mainly with air sport competitions, records, including space activities, and other certified performances.

The FAI unites National Air Sport Control (NAC) organisations, who administer air sports activities in their own countries. The NACs, which are members of FAI, when assembled in the annual General Conference, are the highest FAI policy-making body.

The policies and decisions of the General Conference are implemented by the FAI Executive Board and the Air Sport Commissions. The Executive Board ensures that the Statutes, By-Laws and the Sporting Code, are duly observed.

The FAI Sporting Code consists of the General Section and the Specialised Sections

The FAI Sporting Code deals with two major areas: organized sporting events, such as championships and competitions, and records.

The General Section consists of matters which are common to all air sports and is the responsibility of the FAI Air Sport General Commission (in French, CASI).

The Specialised Sections of the Sporting Code contain rules and procedures for specific air sport activities, and are the responsibility of the appropriate Air Sport Commission (see 2.2.)

Wording: The use of “shall” and “must” implies that the aspect concerned is mandatory; the use of “should” implies a non-mandatory recommendation; “may” indicates what is permitted and “will” indicates what is going to happen. Words of masculine gender should be taken as including the feminine gender unless the context indicates otherwise.

Words importing the singular will include the plural and vice versa.

CHAPTER 1

PRINCIPLES AND AUTHORITY OF FAI

1.1 PRINCIPLES. The FAI is the sole international body in control of air sports and aeronautical and astronomic records in the interests of good sportsmanship and fair competition. The Statutes of FAI specify the Sporting Code as the regulatory system by which the FAI administers and controls all air sport activities.

1.2 SPORTING CODE

1.2.1 The Sporting Code consists of the General Section and the Specialised Sections.

1.2.2 The General Section contains the rules and regulations common to all FAI air sport activities. The responsibility for the development and maintenance of the General Section rests with the FAI Air Sport General Commission.

1.2.3 Each Specialised Section contains rules and regulations that apply to a specific FAI recognised air sport discipline. The responsibility for the development and maintenance of each Specialised Section rests with the appropriate FAI Air Sport Commission (ASC).

1.2.4 The Specialised Section for each discipline shall not conflict with the General Section.

1.3 SPORTING CODE AUTHORITY

1.3.1 NATIONAL AIRSPORT CONTROL (NAC). The authority for enforcement of the Sporting Code is exercised through the Active and Associate Members who hold Sporting Powers (see FAI Statutes and 2.7 below for a definition) in their own countries. FAI Members thus exercising National Airsport Control are referred to as "NAC".

1.4 AMENDMENTS

1.4.1 The General Section of the Sporting Code may be amended by the Air Sport General Commission and each of the Specialised Sections of the Sporting Code may be amended by the appropriate ASC.

1.4.2 Amendments to the General Section shall come into force on the date agreed by the Air Sport General Commission Plenary Meeting. The appropriate ASC shall determine the regular date for annual amendments to the Specialised Sections of the Sporting Code for which they are responsible.

1.4.3 Amended versions of the General Section are published by the FAI Secretariat, acting for the Air Sport General Commission. When an amended version is finalised, it will be published on the appropriate FAI web page. The FAI web reference for the latest GS version is as follows: http://www.fai.org/documents/sportingcode/GeneralSection_download

A NAC is responsible for making sure that its officials and other holders of the Sporting Code General Section are aware of the above and are using the correct version for the year concerned.

2.3.2 \textbf{AERODYNE:} A heavier-than-air aircraft which derives its lift in flight mainly from aerodynamic forces.

2.3.3 \textbf{AEROSTAT:} An aircraft lighter than air.

2.4 \textbf{PERFORMANCE DEFINITIONS.} The definitions of types of performances, flights, courses, etc. shall be determined by each ASC and will be published in the appropriate Specialised Section of the Sporting Code.

Chapter 3
SPORTING LICENSES

3.1 SPORTING LICENCE

3.1.1 STATUTORY RIGHTS. Only FAI members holding FAI Sporting Powers have the right to issue FAI Sporting Licences.

3.1.2 HOLDER’S RESPONSIBILITY. The holder of a Sporting Licence acknowledges that he knows and understands the FAI Sporting Code and commits himself to abide by it. Only holders of a valid FAI Sporting Licence are permitted to participate in FAI sporting events, record attempts and badge flights.

3.1.3 ISSUE OF SPORTING LICENCES. Each NAC has the delegated power to issue FAI Sporting Licences on proof of identity to those of its individual members who are either citizens or residents of that NAC’s country.

A Sporting Licence shall be considered to have been issued, if the holder is listed on the FAI Sporting Licence database by the authority that is issuing the particular Sporting License together with all the required information and the period of validity of that particular Sporting License.

The required information in the database must include, but is not limited to, the name of the issuing authority, the name and contact details of the holder and a number given by the NAC.

A Sporting License may be issued for one airsport discipline (see 2.2 above) or for multiple airsport disciplines. This information must be clearly indicated in the Sporting Licence database.

An FAI Sporting Licence shall be recognised by all NACs.

3.1.3.1 Identification

3.1.3.1.1 The citizenship of a person is proved by an identification document stating his citizenship and issued by or on behalf of the government of the country concerned. This document shall be in English and, if not, it must be accompanied by an official English translation.

3.1.3.1.2 The residency of a person means the place where a person usually lives for at least 185 days in each calendar year because of personal and occupational ties, or in the case of a person with no occupational ties, because of personal ties which show close links between that person and the place where he or she is living. The residency of a person is proved by an identification document stating his residence and issued by or on behalf of the government of the country concerned or by a sworn statement signed by the NAC President. This document shall be in English and, if not, it must be accompanied by an official English translation.

3.1.3.1.3 The identity of a person without nationality is proved by the residence permit issued by or on behalf of the government of that country of residence. This document shall be in English and, if not, it must be accompanied by an official English translation.

3.1.3.2 A person shall not, at the same time, hold a Sporting Licence issued by more than one NAC. An individual, who under the provisions of 3.1.3.6 elects to transfer from one NAC to another, may be issued a sporting licence by his new NAC only after notification to his former NAC and after withdrawal of any valid sporting licence issued by that former NAC. The Sporting
License database will be updated directly by the FAI Secretariat once documentation from both NACs has been received.

3.1.3.3 Although a NAC has the power to issue Sporting Licences, a NAC may delegate that power to other aeronautical bodies within its country and involve such bodies in their distribution. In the event of a Sporting Licence, valid for one airsport discipline, being withdrawn from an individual for disciplinary reasons, the NAC must ensure that all other Sporting Licences issued to that individual (3.1.3.2) by that NAC are also withdrawn.

3.1.3.4 An NAC may refuse to issue a Sporting Licence.

3.1.3.5 In compliance with FAI Statute 1.8.2, the Secretary General, authorized by the FAI Executive Board or the ASC concerned, may issue a Sporting Licence to an individual who cannot obtain a Sporting Licence under the provisions of 3.1.3.6. This right shall not be exercised with regard to individuals who are either citizens or residents of a country with a NAC that has paid the required annual subscription fees before the due date of March 31 or is under suspension in accordance with 3.1.3 above.

3.1.3.6 Rights of representation

3.1.3.6.1 A citizen of a country may be issued with a FAI Sporting Licence to represent the NAC of that country in First Category sporting events and to participate in Second Category sporting events and in record attempts. For the FAI definition of citizenship, see 3.1.3.6.1 and for changes of representation see 3.1.3.6.4.

3.1.3.6.2 Resident. For the FAI definition of residency, see 3.1.3.1.2.

3.1.3.6.2.1 First Category Events. A resident of a country who is not a citizen of that country may be issued with a FAI Sporting Licence to represent the NAC of that country in First Category sporting events, subject to 3.2.3.6.4 on changes of representation.

3.1.3.6.2.2 Second Category Events and other FAI Activities. A resident of a country who is not a Citizen of that country may be issued with an FAI Sporting Licence by the NAC of his country of residence to participate in Second Category sporting events and such activities as record attempts, subject to 3.1.3.2, which prevents the holding of two sporting licences at the same time.

3.1.3.6.3 Multiple Citizenship. A person who has multiple citizenship may freely select the NAC of one of those countries of citizenship to apply for an FAI Sporting License. If such a person subsequently wishes to change to another country of his/her citizenship, this may be done regardless of place of residence, subject to 3.1.3.6.4 on changes of representation.

3.1.3.6.4 Change of Representation - First Category Events. If a competitor has represented a country in a First Category Event, that competitor must not represent another country in any First Category Event during the twenty four months, or a longer period as specified by a particular ASC, following the month in which the First Category Event, in which the competitor represented the first country, takes place. Also, see 3.1.3.2, which prevents the holding of two Sporting Licences at the same time. In the exceptional circumstance where, due to geopolitical change and not personal choice, a competitor becomes resident of another country and is no longer eligible to hold a Sporting Licence in the prior country, this time period can be reduced on the condition that the NACs concerned give their written approval and the case is reviewed and approved by the CASI Bureau.

3.1.4 SPORTING LICENCE FORM
In addition to the Sporting License database, an NAC may produce a printed Sporting License, which may have recorded upon it the airsports for which it is valid.
3.1.5. **VALIDITY OF SPORTING LICENCES.**
The holder of a sporting licence may be required to produce an official document bearing his photograph and signature in proof of identity.

3.1.6. **WITHDRAWAL OF SPORTING LICENCES.** A Sporting Licence may be withdrawn by the FAI or the NAC that issued it.

3.1.7. **OTHER FORMS OF SPORTING LICENCE.** A NAC may issue Sporting Licences in combination with other documents such as membership cards and proficiency certificates. Such formats shall, however, comply with the information requirements set out in 3.1.3.

3.1.8. **UAV RECORDS.** For attempts on Unmanned Aerial Vehicle (UAV) records under Section 12 of the Sporting Code, an FAI UAV Record Licence will be issued. Other Chapter 3 procedures apply, replacing the term “Sporting Licence” by “UAV Record Licence”. Such a licence may be issued to a corporate organisation rather than to an individual, normally to the operating authority for the particular type of UAV concerned.

3.2. **SURRENDER OF SPORTING LICENCE**

3.2.1. A competitor who has been disqualified from participation in an FAI sporting event shall be considered to have surrendered his Sporting Licence to the Event Director. Each ASC will determine the grounds for any disqualification.

3.2.2. The disqualified competitor shall have no right to claim back any part of his entry fee and will not be eligible for any prizes awarded during the event. Any delay in the surrender of the Sporting Licence shall be added to the period of surrender.

3.2.3. During the period of surrender of the Sporting Licence, participation in any FAI sporting activity, including attempts on records, is prohibited. The NAC will determine any period of surrender in addition to the disqualification provided for in 3.2.1.

3.2.4. Disqualification will be grounds for disciplinary action by the NAC concerned, and the Event Director shall send details of the surrendered licence to the disqualified competitor's NAC at the end of the event, together with a written summary of the circumstances. The NAC will be responsible for updating the Sporting License Database within seven days with any change resulting from such disciplinary action.

4.11.2 DOPING, ALCOHOL, ILLNESS AND INJURY

This is a brief outline from the document "FAI Anti-Doping Rules and Procedures", published by FAI and agreed by the World Anti-Doping Agency (WADA) for application to Air Sports.

4.11.2.1 Definition. Doping consists of the use or attempted use of one or more prohibited substances or methods, or of blood or blood products, or of manipulation aimed at making these difficult to detect. This may be intentional, unintentional, involve negligence or omission, or in any other circumstances. A doping offence is also committed by refusal or failure to comply with doping control testing, tampering with doping control, possession of a prohibited substance or method, or aiding a doping offence.

4.11.2.2 Policy. FAI policy is to prevent misuse, malpractice and cheating, in this case where doping is concerned. Doping is contrary to the FAI principles of equity and fair play and is potentially damaging to the health and safety of participants in Air Sports.

4.11.2.3 Prohibited Substances. These are those in the WADA standard list valid at the moment of testing (listed on www.wada-ama.org). The FAI also includes alcohol (above a defined level) for flight safety reasons.

4.11.2.4 Competitor responsibilities. All competitors entering sporting events under FAI rules shall accept that they may be required to submit to, and co-operate with, doping control measures. Entrants with a documented medical condition requiring the use of a Prohibited Substance or a Prohibited Method must before the event concerned have obtained a Therapeutic Use Exemption (TUE) in accordance with FAI Anti-Doping rules. In addition, for reasons arising during or immediately before the event, a competitor taking any drug or medication, or suffering from a medical condition, illness or injury, which might either compromise safety or invalidate a licence, must inform the Contest Director in writing before competing.

4.12 ACCEPTANCE OF ENTRIES
4.12.1 An entry shall be accepted only if made on an official entry form accompanied by the full entry fee and received by the specified closing date.

4.12.2 Late entries may be accepted at the discretion of the Organizer only when there is good reason for the delay and if there are sufficient vacancies.

4.12.3 Entry form details and procedures shall be determined by an ASC and Organizers must make such forms and procedures available on any internet web site for the event. Entry forms which are incomplete or contain inaccurate information may not be accepted.

4.13 CHANGE OF ENTRIES. Change of entries may be made only up to the time stated in the Competition rules but necessarily before the start of the event. Change of competitors, equipment or class can be made only as stated in the Rules and Regulations for the event.

4.14 REJECTION OF ENTRIES. The Organizer of the event may not reject an entry to a First Category Event made in good faith and complying with the terms of the entry.

4.15 RETURN OF ENTRY FEES

4.15.1 If an event does not take place, entry fees shall be returned in full. If the event does take place, but for reasons of force majeure, it is cancelled or stopped, unused fees, as determined by the relevant ASC, shall be paid back. Before a cancellation decision is made, the relevant ASC shall consult the FAI Secretary General who will inform and consult as necessary. Actions will be assessed on a case-by-case basis. In cases with political implications for FAI, the Executive Board may be involved.

4.15.2 A competitor who or a team which withdraws from an event after having had their entry accepted may be entitled to a full or partial refund of the entry fees paid, in accordance with criteria established by the relevant ASC. Such criteria must be clearly stated in the FCE bid regulations issued by the relevant ASC (see 4.8.1).

4.16 RESULTS AND PRIZEGIVING

4.16.1 JURY APPROVAL. The results of an International Sporting Event shall be final only when all protests have been dealt with by the Jury and the Jury has ceased its functions. The final results must be made public before the prizegiving is held.

4.16.2 NOTIFICATION OF RESULTS

4.16.2.1 The officially accepted entry list and results of a First Category Event shall be sent electronically to the FAI Secretariat if possible before the prize-giving and in any case within (24) hours of the end of the event.

4.16.2.2 The results of any FAI air sport event shall be given in writing to the host NAC, all competitors and the NACs they represent and for First Category Events to the FAI Secretariat without delay.

4.16.2.3 For First Category Events, the FAI Secretariat shall be advised by the President of the Jury, within a maximum of eight days of the end of the event, of the number of protests made, together with the numbers of protests withdrawn, upheld or failed, and the respective Jury decisions.

4.16.3 PRIZEGIVING

4.16.3.1 At First Category Events the FAI flag must be flown and the FAI Anthem played. The flags of the countries of the competitors placed first, second and third in each class must be flown and the national anthem of the countries of the champions must be played.
4.16.3.2 The FAI shall award gold, silver and bronze medals in each World or Continental Region Championship and for the World Air Games. These medals shall be supplied by the FAI Secretariat or, if not supplied by the FAI Secretariat, shall conform to the FAI medal specification. They will be awarded to competitors placed first, second and third in the overall Championship, including Women’s and Junior categories if appropriate. All medals are funded from within the ASC concerned. Costs may be passed on to the Organizer if the ASC so decides. If requested by an ASC, FAI gold, silver and bronze medals may also be awarded to all members of teams competing for a single placing (for example, formation skydiving, team racing in aeromodelling, etc). Where teams are based on individual results achieved in the championship, gold, silver and bronze medals may be awarded to the team managers only of such teams placed first, second and third, and, if the ASC decide, smaller FAI Team medals may be awarded to all members of such teams. The large FAI medals for winning teams are to be forwarded by the team manager to the appropriate NAC or other body which the team is representing. An FAI Diploma may be awarded to other competitors if an ASC so decides. The Organizers may award further prizes at their discretion, and additional diplomas may be awarded where the results for male and female competitors are separate.

4.16.3.3 All medals, diplomas and prizes, whether trophies or money, which are referred to in the Sporting Code or the Rules and Regulations of an event, shall be presented not later than at the official prizegiving. Any exceptions to this provision may be authorised by an ASC.

4.17 EQUIPMENT/ DEVICES In each Specialised Section, ASCs may specify the technical standards and criteria for any equipment, electronic or mechanical devices and scoring systems to be used.

Official Observers are empowered to control and certify performances and events for FAI records and badge flights. They must know and understand the FAI Sporting Code and the rules and regulations for the specific events to be certificated. ASCs will determine qualification criteria for official observers in their respective air sport activities, and publish these criteria and duties in the Specialised Sections of the Sporting Code. In the event a performance is evaluated on video evidence, only one Official Observer need be present to verify the recording and the performance may be evaluated using that recording by the required number of official observers at a later date or through an internet connection.

5.2.4 TEMPORARY STATUS

5.2.4.1 Temporary Official Observer Status is assumed for Air Traffic Controllers on duty for observation of take-offs, start and finish lines, turn or control points and landings. Officially registered assistants and officials during a World or Continental Championship or other competitions as specified in the Specialised Sections of the Sporting Code, acting under the authority of the Director of the Championship, may also act as Official Observers.

5.2.4.2 Where an occurrence takes place outside the operational area of an Official Observer, the occurrence may be certified by two independent witnesses within whose skills or competence it is, who give their addresses and state in writing the information required by the pertinent section of the Sporting Code. Certification by other than Official Observers must be countersigned by an Official Observer after he has verified the statements.

5.2.5 VIOLATION OF DUTY. In case of violation of duty the appointment of an Official Observer will be withdrawn. Negligent certifications or wilful misrepresentations will be grounds for disciplinary action by the NAC concerned.

5.3 RECORDS DURING FAI SPORTING EVENTS

Where a record may have been achieved as part of a sporting event, the Organizer shall, if requested, cooperate with the claimant in assembling and submitting the information and taking other actions required, such as notifying the relevant NAC and FAI within the set

Chapter 6

COMPLAINTS, PENALTIES, PROTESTS AND APPEALS

6.1.1 The purpose of a complaint is to obtain a correction without the need to make a formal protest.

6.1.2 Prior to an international sporting event a complaint may be made by an NAC to the host NAC. Such a complaint may concern only failure of the Organizer to comply with regulations for entry or the eligibility or refusal of an entry. A copy of such a complaint shall be sent immediately to the FAI Secretariat, who shall keep the President of the relevant ASC informed.

6.1.3 At any time during the event, a competitor or a team who is dissatisfied on any matter should first ask the appropriate official for assistance. If still dissatisfied, a complaint may be made, by the competitor or through the team leader, to the Event Director or his designated official. Complaints must be made as soon as possible after the event giving rise to the complaint, and shall be dealt with expeditiously.

6.3 PROTESTS

6.3.1 A protest against a decision on a complaint as described in 6.1.2 must be made prior to the start of the event.

6.3.2 If dissatisfied with the decision on a complaint made during the event, a competitor or team leader has the right of protest. Such a protest must be made in writing, in English, and be handed by the Team Leader to the Event Director together with the protest fee within the time limit, both established by an ASC. If a competitor has no separate team leader, he may lodge the protest himself. The amount of the protest fee and the time limit within which a protest must be made shall be stated in the rules for the event.

6.3.3 Normally, the deposited fee is returnable only if the protest is upheld, or is withdrawn prior to the hearing by the Jury.

6.3.4 All non-refunded deposit fees from protests will be sent by the Jury to the FAI, for the attention of the Secretary General, within 28 days of the conclusion of the event. The fee will then be segregated for the use of the ASC concerned.
6.4 **TREATMENT OF PROTESTS**

6.4.1 The Event Director must present any protest to the Jury President without delay. The President shall call a meeting of the International Jury within 24 hours of receiving a protest, unless a different period is stated in the relevant Sporting Code or the local regulations.

6.4.2 The Jury shall hear both sides on the matter of any protest, applying the relevant FAI regulations and the rules for the event.

6.4.3 The President of the Jury shall report the result and a summary of any relevant considerations in writing to the Event Director without delay, who shall make public the President’s report.

6.5 **APPEALS.** An NAC may appeal to FAI on matters concerning international sporting events and record attempts and against a decision relating to a dispute of a sporting nature in accordance with the provisions of this chapter.

6.5.1 **RIGHT OF APPEAL.** The right of appeal to FAI rests with the NAC concerned, except for matters under 4.11.2 for which the person concerned has a right of appeal. The FAI Air Sport General Commission (CASI) is responsible for the treatment of appeals.

6.5.2 **NOTICE OF APPEAL.** Notice of Appeal to FAI must be made in writing in English or French and addressed to the FAI Secretary General by the authorized representative of the NAC concerned or by the individual concerned in matters under 4.11.2. It shall be accompanied by all necessary documents and a deposit. The amount of the deposit shall be fixed each year by FAI.

6.5.3 **TIME LIMIT.** An appeal to FAI must be received at FAI Headquarters within 90 days from the incident, action or announcement of the decision leading to the appeal. This time may, in special circumstances, be extended by the CASI Bureau.

6.6 **TREATMENT OF APPEALS.**

6.6.1 If directed by the FAI Executive Board, in the case of an Appeal concerning international sporting events and record attempts (Statute 5.2.3.2.4), CASI will act as the FAI Final Court of Appeal.

6.6.1.1 In this case CASI will work in accordance with the principles of the FAI International Appeals Tribunal Manual in the same manner as the International Appeals Tribunal.

6.6.1.2 Decisions of CASI acting as the FAI Final Court of Appeal are final unless an appeal is filed within 21 days of the publication date of CASI’s decision to the Court of Arbitration for Sport (CAS) in Lausanne, or unless major new factual issues which could have affected the decision are revealed after the decision, in which case CASI shall decide on further action.

6.6.2 In the case of an Appeal concerning disputes of a sporting nature (Statute 5.2.3.2.5), if an appeal has been made in accordance with 6.7 and 6.8, CASI will establish an International Appeals Tribunal of three members, one of whom shall be appointed Tribunal Chairperson. The members, who shall be independent of the parties involved, will be appointed by the CASI Bureau, upon recommendation from the CASI President, who shall also designate the Tribunal Chairperson.

6.6.2.1 The International Appeals Tribunal will work in accordance with the provisions of the FAI International Appeals Tribunal Manual.

6.6.2.2 Decisions of the International Appeals Tribunal are final unless an appeal is filed within 21 days of the publication date of the Tribunal’s decision to the Court of Arbitration for Sport (CAS) in Lausanne, or unless major new factual issues which could have affected the decision are revealed after the decision, in which case CASI shall decide on further action.
6.7 PUBLICATION OF DECISION
The FAI has the right to publish the judgement and give the names of the persons concerned. These persons may not use the publication of the judgement in order to institute proceedings against the FAI or against any person who made the publication.
Chapter 7

INTERNATIONAL RECORDS

7.1 DEFINITION OF AN INTERNATIONAL RECORD. An International Record is a World Record and/or a Continental Regional Record. It represents the best performance certified by the FAI and established in a FAI Class, Sub-class, Category or Group as specified in the Sporting Code GS and/or Specialised Section. Classes are listed in 2.1 above. Sub-classes, Categories and Groups shall be defined in the Specialised Sections.

7.1.1 Types of records (e.g. altitude, altitude with payload, distance and/or speed over different courses) should be specified for each FAI Class in the appropriate section of the Sporting Code.

7.1.2 Any performance being submitted for recognition as an International Record must be in compliance with all relevant provisions in this General Section and in the appropriate Specialised Sections.

7.1.3 A performance may meet the certification criteria for a World Record and/or a Continental Regional record. The certification claim must state whether certification is requested as a World Record, a Continental Regional Record or both. The administration fee charged by FAI for certification of each International Record will be charged only once, even if both World and Continental Regional Records are established.

7.1.4 For record purposes Continental Regions shall be as defined in 2.5 of this General Section of the Sporting Code for Continental Regional Championships, with one exception: an ASC may stipulate in its own Specialised Section of the Sporting Code that part of the Russian Federation East of the 61° meridian shall be assigned to Asia.

7.1.5 Each ASC shall decide if Continental Regional Records may be established in its activity and, if so, in its own Specialised Section of the Sporting Code, shall set out any specific criteria to be applied to the participants and/or other terms and limitations applicable thereto.

7.2 ABSOLUTE RECORDS. The types of records recognised by FAI as Absolute Records shall be determined by the ASCs and will be shown in the Specialised Sections of the Sporting Code.

7.3 HOLDERS OF RECORDS

An International Record may be held by a person, crew or team, or as otherwise stated in the respective Specialised Section of the Sporting Code. Where an International record is in the name of more than one person, FAI will list those persons in alphabetical order unless a different order is directed by the claimants' NAC.

7.4 ADMINISTRATION OF RECORDS

7.4.1 The NAC which issues the FAI Sporting Licence of any person attempting an International record or, in cases of team attempts, the NAC that issued sporting licences to the largest number of team members (the Organising NAC) is responsible for certifying the International Record claim dossier prior to submission to FAI, regardless of where the record attempt took place.

7.4.2 When a record attempt both originates and terminates in a country other than that of the Organising NAC, the local NAC shall control the attempt by authorising the Official Observers involved in accordance with 5.2.1. The local NAC in these circumstances shall be known as the Controlling NAC. If necessary, and/or if so requested by the Organising NAC,
a Controlling NAC shall also provide control of record attempts which either originate or terminate in its country.

7.4.3 Where the record attempt crosses or is made over the territory of another NAC, the organising NAC is responsible for informing, if necessary and applicable, that other NAC in advance of a planned record attempt over its territory.

7.5 RESPONSIBILITY FOR AUTHORISATIONS. A person wishing to attempt a record is responsible for everything required for the execution, control and certification of the attempt, including obtaining any authorisations, permits and clearances. When a claim is submitted, it must be shown that a valid FAI Sporting Licence, which covered the period of the performance, was held by the claimant.

7.6 SIMULTANEOUS RECORDS. On any date that a record is broken by more than one pilot, the best performance only will be awarded the new record, except that, if two or more aircraft flying in a group and in the same conditions achieve exactly the same performance and simultaneously beat a record, the performance may be registered as a record in the joint names of the pilots or members of that group.

7.7 MULTIPLE RECORDS. A person may attempt more than one record in the same attempt provided that the records belong to the same Class, are permitted in the Sporting Code concerned, and are controlled by the same verification and certification methods as if they were separate records.

7.8 CERTIFICATION OF INTERNATIONAL RECORDS

7.8.1 An International Record claim must be supported by a file containing all the information and certification necessary to prove that the conditions have been met. The file must be submitted by the organising NAC and must be received by the FAI Secretariat within 120 days of the attempt, unless an extension is granted by the relevant ASC President having reviewed any factors that may have made it difficult to submit the file in the normal timescale. The FAI Secretariat shall acknowledge receipt of the record file to the claimant and the organising NAC. The file must be in compliance with any requirements set out in the relevant Specialised Section of the Sporting Code or, if none are specified, in any appropriate format and shall include a statement that the attempt was made in accordance with the regulations of the Sporting Code.

7.8.2 The record claim shall include, as applicable:

- classification (class, subclass, etc.) of the record being claimed;
- its title and description, including the record performance;
- place (course) and date of the attempt;
- name, gender and citizenship of the competitor(s) and/or country represented;
- number and expiry date of the competitor's sporting licence and the name of the issuing NAC;
- certification by the Official Observers appointed in accordance with 5.2.1;
- type of aircraft and registration or identification marks;
- type of engine(s) or power source, power and identification number(s);
- name of the NAC responsible for the control of the record attempt.
7.8.3 Written notice (to include fax and email) and telephone notice formally registered by FAI of a preliminary claim for an International Record must be submitted by either the organising or the controlling NAC, or the official observer controlling the attempt, or the Sport Event organisation (5.3), or the claimant and must be received by FAI within 7 days of its completion as a record attempt, unless an extension is granted by the relevant Air Sport Commission President having reviewed any factors that may have made it difficult to submit the file in the normal timescale. The FAI Secretariat shall acknowledge the receipt of the notice of a preliminary claim by posting the details on the FAI Website and by way of an email notification to NACs, ASC Delegates and Presidents. NACs are expected to keep the claimant informed of the progress of claims.

7.8.4 Each ASC may include provisions in its Specialised Section that will allow notification directly to FAI of a record performance set during a First Category Event. Such a notification will not be required to follow the provisions of 7.8.1 and 7.8.3, but must include information necessary to prove that the conditions have been met. However the notification sent directly to FAI must also be sent to the record claimants NAC, so that the requisite administration fee may be paid.

7.9 **VERIFICATION.** The FAI reserves the right to request further information or documentation, and shall advise the NAC of acceptance or refusal without delay. In the event that some evidence is missing or there might be conflict within the rules, the FAI will request the FAI Air Sport Commission concerned to give advice. The FAI will give a written explanation of any refusal.

7.10 **NOTIFICATION**

7.10.1 The FAI Secretariat shall inform all NACs as soon as practicable of record claims presented for homologation.

7.10.2 The FAI Secretariat shall notify all NACs of the final certification of new records by posting the details on the FAI Website and by way of an email notification to NACs, ASC Delegates and Presidents. Certification shall become final if no appeal has been lodged against it within 90 days of the date of publication of the original notification.

Measurements, Calculations, and Margins

8.1 MEASUREMENTS

8.1.1 Units. The system of units to be used by FAI shall be the metric system (SI units), with the exception of angular units. Bearings shall be measured in degrees clockwise from True North. Coordinates shall be in units of degrees, with a preferred format of “degrees and decimal minutes.”

8.1.2 General. The methods and standards of precision for measuring and recording of Position, Distance, Time, Altitude, Mass and other primary values, as well as equipment technical standards, shall be determined by each FAI Air Sport Commission and specified in the appropriate section of the Sporting Code. In the case of record flights, the conformity of the specific measuring and recording instruments and equipment used shall be checked by the Official Observer to be of the same type as approved by the respective FAI Air Sport Commissions. Note: in this section, the term “approved” means approved by the Air Sport Commission concerned.

8.1.3 Position. Position may be measured directly, by reference to approved maps, or by GNSS fix. If by GNSS fix, all fixes, points, locations, coordinates and any maps concurrently used must be referenced to the WGS84 Earth Datum.

8.1.4 Distance. Distance may be measured directly or determined from approved maps.

8.1.5 Bearing. Bearing may be measured directly or determined from approved maps. The bearing at a point is the bearing from that point.

8.1.6 Time. Elapsed times and time of day may be measured either by approved timepieces or by GNSS.

8.1.7 Altitude. Pressure altitude may be measured using approved pressure-measuring devices. Geometric altitude and/or height above the surface may be measured using GNSS, optical methods or radar.

8.1.8 Mass. Mass shall be determined using scales and methods approved by the Air Sport Commission concerned. The take-off mass of an aircraft shall be its total mass at take-off including flight crew.

8.2 CALCULATIONS

8.2.1 General. The methods and standards of precision for calculating Distance, Bearing, Altitude, Speed and Scores shall be determined by each FAI Air Sport Commission and specified in the appropriate section of the Sporting Code. Note: in this section, the term “approved” means approved by the Air Sport Commission concerned.

8.2.2 Earth Model. The Air Sport Commissions are responsible for the specification of the basis of geometric calculations. If not otherwise specified by the Air Sport Commissions, the earth model to be used for geometric calculations shall be the WGS84 ellipsoid. If a sphere is specified, it shall be the “FAI Sphere.” If a planar model is to be used, then the projection must be strictly defined.

8.2.3 Distance. If calculated from coordinates, distance shall be taken as the length of the geodesic on the earth model in use.

8.2.4 Bearing. If calculated from coordinates, bearing shall be taken as the initial bearing of a geodesic from a given point on the earth model in use.
8.2.5 Altitude. The methods for calculations of corrections to measured altitudes (if required) shall be specified by the Air Sport Commissions. If a standard pressure model is required, it shall be the ICAO Standard Atmosphere.

8.2.6 Speed. Speed will be calculated from distances and elapsed times.

8.2.7 Scores. The methods for calculations of scores shall be specified by the Air Sport Commissions.

8.3 MARGINS AND PRECISION

8.3.1 Each Air Sport Commission is responsible for specifying the margins by which a record claim must exceed an existing record, subject to paragraph 8.4.2 of this Chapter.

8.3.2 Each Air Sport Commission shall determine the precision with which a performance will be recorded. A performance must not be certified with a higher precision than the technologies used to determine it.

8.4 APPROVALS

8.4.1 As an alternative to specifying algorithms, each Air Sport Commission may meet its obligation to specify computational methods by approving specific flight evaluation and scoring programs. If this method is used, then the ASC must implement procedures for testing, approval, and version control of the flight evaluation and scoring programs.

8.4.2 The FAI Executive Board reserves the right to review the standards of certification and the methods of analysis of any international record claim.
