Villeneuve, March 31, 2017

Statement for BGD Diva XS

BGD (Brucde Golsmith Design) Diva XS, have passed full certification, flight and strength test according to the CCC requirements.

That mean the glider is full certified (flights and strength) before 90 days required by CIVL for CCC class.

We're (Air Turquoise SA) in delay for delivery the administration and to publish the glider before 1st of April. As soon as we'll be full and properly ready we'll send you all documentation as is required and also, we'll publish it on our website www.para-test.com

We apologies for the delay and hope everything can be accepted from the CIVL part.

Best regards,

Alain Zoller
(responsible of test)
