

TECHNICAL & SAFETY COMMITTEE ANNUAL REPORT — 2020

1. The 2019 Safety Report was compiled.

The report is being distributed by e-mail to Delegates and to all countries on the T & S e-mail lists.

The ISC T&S material being distributed is:

- *Safety Report for 2019 and Power Point Presentation of same.*
- *The 2020 Safety Survey Form and related notes*
- *Parachuting Aircraft Incidents 2020 Report*

2. No Information Notices were issued by the T&S Committee in 2020.

Material on how some countries were operating, while handling the virus restrictions, was distributed to all countries.

3. The T&S Committee is co-operating with the PIA (Parachute Industries Association) in the study of fatalities occurring through hard openings. The study is ongoing at the time of this report.

I thank the T & S Committee Members, specially Liam McNulty for his tireless work on safety and those nations which responded to the 2019 T&S survey.

Their important input makes it possible for the T&S Committee to produce valuable safety material.

In the coming year, the Committee will continue its work on the Safety Survey, and other technical and safety issues which may come before it.

Blue skies

Gustavo Eduardo Reyes

Technical & Safety Committee Chair
