Nomination of Brian Pangburn for the FAI Leonardo da Vinci Parachuting Diploma

On behalf of the European CF Community the Bundeskommission of the German NAC, Deutscher Aeroclub, wish to nominate Brian Pangburn from the United States of America and current USPA member to receive the FAI Leonardo da Vinci Parachuting Diploma for promoting the discipline of Canopy Formation Skydiving and supporting training camps to increase the overall skill level especially in big formation flying for over 10 years.

Since the world record camps had begun Brian Pangburn has been around the world passing on knowledge and advice at various events in Europe and other parts of the world. Brian has been jumping with a huge number of CF Jumpers around the world teaching techniques and passing on the knowledge he has gathered in over 10,000 CF jumps in his career as a competitor. Doing that on a voluntary basis he helped a lot to promote canopy formation skydiving and raise the horizon of knowledge and skill of the worldwide CF jumping community.

Brian Pangburn achieved many CF World Records including largest formations: 81-way and 85-way in 2005, 100-way in 2007 and longest 2-way sequence with 45 points in 2013.

Therefore we would like to have him awarded with the
FAI Leonardo da Vinci Parachuting Diploma

On behalf of the Bundeskommission of the German NAC, Deutscher Aeroclub

Peter A. Pfalzgraf
