Rule Changes - Proposals:	<p>Paragraph 7.3 addresses the number of participants for the delegation of a NAC (Seniors and Juniors) but no article refers to the classification of Juniors by NAC.</p> <p>Proposal to be included in 7.3.3. a sentence concerning the classification of the juniors by NAC.</p> <p>7.3.3. Junior competitors who are part of their male or female Accuracy Landing team may choose to be ranked in the in the individuell classification (AL, ST, individuell overall) as a Junior or Senior. This must be clearly indicated on the final entry form. There is no limit per NAC for participation in the junior classification.</p>
Personal Remarks:	<p>It was my first job as Chief Judge at a World Championship.</p> <p>This competition could be validated with the required minimums (5 rounds in Accuracy and 1 round in style) having been obtained at the end of the last day due to the bad weather conditions which presented themselves to us during 2 days (Friday and Saturday).</p> <p>Concerning the classification of the Juniors, I took the decision to make a classification with all the juniors present without limiting the number to 2 by NAC (this point not being clearly stated in the regulations). No World ranking could be established for the Overall Nation and Style of Women and Juniors due to the lack of participation of the countries (only 3 countries represented). A Championship ranking has nevertheless been established.</p> <p>No complaints were filed during this competition regarding our work as a judge.</p>
<p>In accordance with the Sporting Code Section 5, 6.9.1. (11) this form is to be completed and sent to the Chair of the Judges' Committee and the IPC Recording Secretary within 30 days of the competition's completion.</p>
