Competition Rules changes AL & ST 2022

1. 4.2. Order of jumping

4.2.1. The order of jumping in the first Accuracy Landing round will be determined by reverse order of placing, separately for men and women, based on final results of National team Accuracy Landing during the last World / Continental Championship. National teams which are not covered by this procedure will jump at the beginning of the first round, with order determined by draw, at the discretion of the Meet Director. Individuells, not take part in the team event, will be gathered in "mixed groups" determined properly by the Meet Director and will jump at the end of the round, in order determined by draw. In all other rounds, the jump order will be in the reversed rank of the last completed round.

In all other rounds, the jump order for National Teams will be in the reversed rank of the last completed round, mixed groups at the end of the round.

Rational

c) The top 15 male and the 8 female competitors, placed in round 9 (semi-final) qualify for the final round.

~~The top 8 juniors and the 6 junior female competitors, placed in round 9 (semi final) qualify for the final round.~~

e) If adverse weather conditions dictate, and there is insufficient time to complete all rounds (after the minimum number has been completed), the Meet Director, in consultation with the Chief Judge, may decide in the interest of the event, to move straight into the final round with the top 15 male/8 female including the male/female junior and the (8 male/6 female junior) competitors.

If juniors are in the semi-final and/or final round, the jump will count also for juniors ranking.

Rational

If men and juniors as well as women and juniors are on the result list for men and female, we don't need a semifinale and finale for the juniors.
