Key challenges

We identify two challenges for the next couple of years:

1. Make sure the panel of judges have the required training before every competition. We want to make an online training platform for judges. We hope to start working on this in 2022.
2. Keep developing the divepool in order to make it interesting for competitors as well as spectators.

Work during 2021

No events in 2021.

We organized a workshop to develop our divepool in Poitiers, France, in October 2021. Flyers from all over Europe gathered at Zerogravity Futuroscope to discuss, test, and make a short-list selection of all the moves that were proposed by both the Dynamic Committee and the community via a previous questionnaire.

Communication

We have held monthly video meetings during the year, only pausing for the 3 summer months. For every meeting we have an agenda and record minutes. This has helped us a lot keeping on track.

Future competitions

2022: 4th FAI World Cup of Indoor Skydiving and 2nd European Indoor Skydiving Championships, Charleroi, Belgium, April 5th to 10th

2023: 4th FAI World Indoor Skydiving Championships, Liptovsky Mikulas, Slovakia, April 21st – 23rd

Budget 2022

We did not spend the budget for 2021 (1000€). We ask to have the budget from 2021 transferred to 2022 (1000€).

Thank you to the members of the Committee for all your hard work.
