- Future competitions

Competitions in 2021

3rd FAI World Speed Skydiving Championships 2021, Tanay, Russia

CJ: Bert Ham

27 competitors from 8 NACs – Belgium, Germany, Italy, Netherlands, Russia, Switzerland, Sweden and United States of America. 20 male competitors, 7 female competitors, but only three teams.

There were set of multiple World and Continental Competition Records set by:

- | | |
|--------------------------|--|
| ○ World General | Kyle Lobries (USA) – Current record |
| ○ World Female | Maxine Tate (USA) – Current record |
| ○ World Junior | Massimo Caramel (ITA) – Current record |
| ○ North American General | Kyle Lobries (USA) – Current record |
| ○ North American Female | Maxine Tate (USA) – Current record |
| ○ European General | Luc Masin (BEL) – Current record |
| ○ European Female | Anastasiya Ignatova (RUS) – Current record |
| ○ European Junior | Massimo Caramel (ITA) – Current record |
| ○ European General | Marco Hepp (GER) – Superseded since approved |
| ○ European Female | Elena Laktionova (RUS) – Superseded since approved |

The competitors open meeting was held right after the competition.

Summary of the discussed matters during the competitors meeting and to be discussed in the committee:

- More than 1 team for a Nation if enough competitors are in the team
Committee decision: *The committee decided not to implement this. Teams can be gender mixed.*
- A record for highest Team Results
Committee decision: *The committee decided not to implement this. At least not this year.*

SUBJECT:	ISC Speed Skydiving Committee Report	AGENDA #	17
AUTHOR:	Aliya Ananina, Chair – Speed Skydiving Committee		
DATE:	26 November 2021	PAGES:	2

Too many records will reduce the value of a record.

- A record for Fastest Team round
Committee point decision: *The committee decided not to implement this.*
- A record for Individual highest average
Committee decision: *The committee agrees and will propose this. It must be over a completed competition!*
- Instead of the choice for 3 competitors at the start, can the best 3 count
Committee decision: *The committee decided not to implement this. Team composition should be set before the start of the competition.*
- To have a team of 2 with a guest from another country
Committee decision: *No guests from other nations, it goes against the idea of ranking nations separately.*
- To add weight
Committee decision: *NO, safety reasons.*
- How can we improve the visibility of our sport, eg Taking video footage to show.
The scores are not displayed on the main board.
Committee decision: *from 2012 to 2016 we did a good job in this. In the meantime cameras did get better (higher resolution, smaller) but we've no software for rendering video overlays anymore. Searching for new technologies.*
- Go to 10 rounds
Committee decision: *8 is enough and it can all be done in 1 day if necessary. Not a big enough reason to increase it.*

We will discuss this next year again.
- To limit the amount of jumps per day
Committee decision: *NO. A limit of jumps per day would restrict the Meet Director and may cause that a competition can not be finished with all possible rounds ... time would allow to do more, but not the rules.*

Judging Courses

No judges courses were conducted this year.
