SKYDIVING AIRCRAFT INCIDENTS 2022

Technical & Safety Committee

International Skydiving Commission (FAI)

ISC Plenary Meeting, Malmo, Sweden, January 2023

This listing is being distributed by the ISC's Technical & Safety Committee, to ISC Delegates at the ISC Plenary Meeting, held in Malmo, Sweden, January 2023, and by e-mail to Parachuting/Skydiving Technical & Safety Officers.

INCIDENTS RESULTING IN FATALITIES OR INJURIES

<i>Date</i>	<i>Aircraft Type</i>	<i>Details of Incident</i>	<i>Injuries</i>	<i>Fatalities</i>
24.02.2022	Cessna 208B Grand Caravan	Aircraft finished skydiving operations, was on approach and landed short of the runway in a marsh.	2 – serious injuries	
11.05.2022	Cessna 206 Caravan I	A Cessna 208 (Blackhawk VY conversion) operating on a skydiving flight, with 15 skydivers, crashed in a field, coming to rest inverted next to a transmission tower. Two occupants died of their injuries sustained in the accident. During the climb, there was a loss of power and abnormal popping sound coming from the engine. The pilot opted to make an emergency landing in a rural area. During the landing, the aircraft crashed into a ravine and a fence.	0	2 – 2 skydivers
03.06.2022	Cessna 208B Supervan 900	A Cessna 208B Supervan 900 (Honeywell TPE331-12JR 850 hp engine) skydive configured airplane was substantially damaged when it crashed in a field about 1/4 mile short of the runway. The pilot in training was fatally injured and the pilot was seriously injured.	1	1 – one of the two crew died in the incident
07.06.2022	Cessna 206U Stationair	A Cessna U206F Stationair suffered an engine failure and made a forced landing on a reef, and came to rest upside down. One of the two occupants received minor injuries and the aircraft sustained minor damage.	1	
11.06.22	Orlican L- 60S Brigadyr	Aircraft crashed during a parachute flight, the pilot died in the accident and one skydiver (of four) exited the aircraft and was found injured.	1 - Skydiver	1 - Pilot
25.06.22	Neiva C-42 Regenta	During the landing the aircraft left the runway and overturned, resulting in substantial damage and one fatality.	2 - includ. Pilot	1 - Skydiver
03.10.22	Cessna U206G Soloy Stationair 6 II	After parachutists had jumped from the aircraft, it crashed under unknown circumstances, apparently after a technical malfunction. The pilot died and the aircraft was destroyed. The aircraft had operated several parachute rotations for around 3.5 hours before the crash.	0	1 - Pilot

INCIDENTS RESULTING IN DAMAGE TO AIRCRAFT OR PROPERTY, OR NO DAMAGE.

<i>Date</i>	<i>Aircraft Type</i>	<i>Details of Incident</i>
01.01.2022	Cessna 182C Skylane	The aircraft had finished skydiving operations, was on approach and landed short of the runway in a marsh.
13.02.2022	Cessna U206G Turbo	During movement on the airfield the nose-wheel sank into soft ground, resulting in the propeller and port wing striking the ground.
04.04.2022	De Haviland DHC-2 Turbine Beaver	After completing parachute operations, the engine failed and the pilot conducted a forced landing.
24.04.2022	Cessna 182G Skylane	An experimental Cessna 182G Skylane, was destroyed when it was involved in an "airshow" accident. The sole pilot on board was not injured. The aircraft was part of the 'Plane Swap; and unmanned at the time, the aircraft entered an inverted spin and impacted desert terrain. The pilot had jumped out prior to the sequence and entered another aircraft involved in the demonstration, in which he landed safely. The pilot of the other aircraft had jumped out prior to the sequence and parachuted down to the ground safely.
30.04.2022	Cessna 208B Grand Caravan	During downwind leg, after a parachute drop, the engine shut down due to fuel starvation. The pilot landed short of the runway.
04.05.2022	Cessna U206 Super Skywagon	The aircraft was set on fire and burned out.
07.05.2022	Cessna 180J Skywagon	A Cessna 180J Skywagon suffered an engine failure after take-off and made an emergency landing. All three occupants survived the crash and the aircraft received substantial damage. It was en route to another airfield for parachuting instruction.
04.06.2022	Cessna 208 Caravan I	The Cessna 208 Caravan I overshot the runway after landing, crossed a brook and ended up in trees. The pilot was not injured.
22.10.22	Cessna U206 Turbine	The pilot took off with five parachutists on board. After he had dropped the parachutists, he descended for landing. On landing, the nose gear collapsed and the aeroplane came to a stop on the runway.
