CHIEF JUDGE REPORT

Dynamic Flying D4W
Dynamic Flying Junior D2W

Location : Hurricane Factory Tatralandia, Slovakia

Dates : 2023 April 19 - 22th

Panel of judges :
Moxnes, Kristian (Event Judge)
Chatelain, Jean-Philippe
Grealy, Joseph
Sen, Marcin
McCarthy, James

Scoring Equipment Used : DynamR - InTimeScoring

Teams / Number of flights : Dynamic Flying D2W : 12 teams / 69 flights
Dynamic Flying D4W : 7 teams / 39 flights
Dynamic Flying Junior D2W : 5 teams / 31 flights

Technical part :

The Dynamic Judging area, system and review setup was ready to be used on time by judges so they had the opportunity to train their eyes before the start and during the speed checks.

Dynamic video setup was really efficient, allowing reviews to be carried out quickly by judges when needed, as well as the video display for competitors in the antechamber in case of a challenge procedure.

General part :

2 teams did not provide the video of their free routine within the allotted time and were given a technical score of 0.

I made the decision to re-evaluate the voting result of the D4W semi-finals (free routine), which seemed to me to be inconsistent with the scores awarded during the qualifiers. Some Judges confirmed their mistake and overruled their judgment.

A protest was filed by the Swiss team following the judgment of the D4W semi-finals.

This protest was handled by the jury, and the conclusions have been or will be taken into account by the Dynamic committee.

Judges assessment:

What happened during the aforementioned semi-final shows that the judges do not have enough confidence in themselves and lack experience, mainly due to the fact that they do not judge enough competitions during the year.

Organization :

Despite the distance between the competition site and the airports, the organizer put in place means to ensure that the judges arrive on time. Accommodation and food were satisfactory.

Recommendation:

FAI judges should continue to judge national or local competitions.
