**INTERNATIONAL SKYDIVING COMMISSION
DYNAMIC COMMITTEE REPORT**

Dynamic Committee members:

MOXNES Kristian	Chair	Norway
KIGER Domitille (Domi)	Deputy Chair	France
FLAAT Haavard	Member	Belgium
CORBY Mason	Member	Australia
BADDORF Anna Katharina	Member	Austria
PETRACCO David	Member	France
TUREK Jan (Honza)	Member	Czech Republic
CHATELAIN Jean-Philippe	Member	France
VÄISTÖ Mauri	Member	Finland

Key challenges

We have identified three challenges for the next couple of years:

- 1) Implement Solo Speed
- 2) Make sure we have enough judges.
- 3) Make sure our judges have the tools necessary to train and be current.

Based on the feedback from competitors, the biggest suggested change to our rules for the Plenary is to add a new event Solo Speed. This is a format that has been tested on a national level for a few years. The challenge will be to have enough judges to accommodate this new event in Dynamic.

Work during 2022

4th FAI World Indoor Skydiving Championships in Slovakia 19-22 April 2023

Categories:

- Dynamic Flying D2W 12 teams / 69 flights
- Dynamic Flying D4W 7 teams / 39 flights
- Dynamic Flying Junior D2W 5 teams / 31 flights

Total of 10 NAC's

The technical side of the competition worked well, the organizer had done a good job with setting up the judging systems. Some smaller issues with the camera placement. There was also a challenge with the temperature in the tunnel getting too high, especially during training. The FAI controller did a great job working to give everyone similar temperatures/conditions.

The judging was mostly working okay. The biggest issue was during one of the free routine battles in Dynamic 4-way. Each of the five judges vote for the winning team. After one of the battles it was three against two. This is not in itself uncommon, the unusual thing was that the losing team had higher technical difficulty score (40 % of the score) and both teams flew clean routines. Normally this would have given the opposite result. This issue was dealt with by the judges panel by reviewing the videos and casting a new vote. given the manifest error of assessment, the result was changed after the battle was finished, which created some frustration and anger from some of the competitors.

We have discussed the above situation in the committee, and we have come up with a few amendments to the rules to hopefully avoid a similar situation in the future.

The committee continues to improve the competition rules by simplifying them when possible and by improving them according to the feedback from the judges and the competitors.

Communication

We have held monthly electronic meetings during the year. For most meetings we have an agenda and record the minutes. This has helped us track the rule changes, and has significantly reduced the workload in the weeks leading up to, and during, the Plenary meetings.

Judges

We currently have 9 Category 1 DY Judges, and 3 Category 2 DY Judges.

Future competitions

2024: 3rd FAI European Indoor Skydiving Championships and the 5th FAI World Cup of Indoor Skydiving, Macau (Hong Kong NAC)

Rule changes Dynamic 2023/2024

What	Rule under discussion	RULE #
HOUSE-KEEPING	Change wording to be in line with the other Mixers (remove “crossing through the Sidelines”)	M7 in D2W
	Renaming Butterfly	Butterfly with bottom loops
GENERAL COMPETITION RULES	Add Solo Speed as a new event	NEW CR
	Flight order during battles	5.5.1
	Speed for free routine: Add “Any entry into the flight chamber must be considered as a validation by the Team of the speed settings.”	4.6.5
	Speed for free routine: Add “For each free routine, the event judge must make note of the wind speed and communicate it to the judges. “	6.2.2.1
	Ensure quality of video: Replace “should” with Must” (5.2.2) and add a penalty if not compliant (5.2.3) Removed if the suggestion to “remove the mandatory delivery of video before the competition” is passed (ref rule # 5 & 6 below)	5.2.2, 5.2.3
	Junior have same draw as open, juniors fly first	4.4, 3.1
	Move the judging criteria “wind loading” from Technical Difficulty to Execution	6.2.1
	Creation of a judgement call for free routine.	6.2.3
	No scoring for Qualifications (technical difficulty is only assessed).No video before then. Qualifications ranking based on speed only. During Tournament: then judges judge Win/Lose and must stick to the technical difficulty score given)	5 and 6

Solo Speed

At the request of competitors and in view of the worldwide organization of solo speed competitions, it became necessary to establish coherent rules accepted by all. These rules have been used in numerous competitions to test their quality.

The DY Committee worked hard in 2022 and 2023 to present a new set of rules to the plenary session.

It is this new event that we wish to present and see adopted as a new FAI event.

A COPY OF THE SET OF RULES FOR Solo Speed (in the form of a project) is attached

Budget 2023/2024

We did not spend the budget in 2023, and we don't foresee any costs in 2024.

Thank you to the members of the Committee for all your hard work.
