

FAI/ISC Organiser Concussion/Injury Protocol Information Form

The FAI/ISC adopted a Concussion/Injury Protocol for the safety of competitors in skydiving and tunnel competitions. The purpose of this form is to obtain additional information for specific event implementation. Organisers are asked to complete this form and return to ISC.

The Organising Committee named below is aware of the FAI/ISC Concussion/Injury Protocol and will provide assistance during the entire event when a competitor is identified as potentially injured (Please check one option):

The Organiser will provide a Licensed Medical Doctor on-site.

The Organiser will contact local emergency services for ambulance transport, or arrange for private transportation to a Hospital, Medical Clinic, or Medical Doctor's Office.

In addition, the Organiser will assist in returning the completed Medical Evaluation Form to the Meet Director and FAI Controller.
