

2022 Interim Bureau Decisions

DATE	IBD No.	SUBJECT	DECISION
01/10/2022	2022/10	<p>CP Freestyle World Championships - National Team Medals</p> <p>The Bureau received the following e-mail from the CP Committee Chair.</p> <p>"As you know this year, we did a complete overhaul of our CP CR and we separated the standard events and the freestyle events into two separate set of rules. In the process I made an omission and I left out the NATIONAL TEAM CHAMPIONS in 9.1 FCR and at the same time the medals to be awarded to the National Team Medals in 9.3 FCR.</p> <p>This was spotted after the approval of the rules.</p> <p>The CP Committee unanimously agreed that this was an omission that will be rectified next year since the intention is to have National Team Champions in the Freestyle event, and it is already considered in 3.3 of the freestyle rules. We also agreed that medals should be awarded to the Team Champions in the upcoming WCPC in Eloy next month.</p> <p>The Organiser has agreed to pay for the extra medals. The scoring provider Omniskore has agreed to incorporate the Freestyle Team event in the system. Intime has also agreed to add this new template to the ISC results site.</p> <p>I would like to request an IBD to allow this."</p>	<p>The ISC Bureau unanimously agreed to accept the proposal of the CP Committee and authorise the attribution of National Team Champions in the upcoming 3rd FAI World Canopy Piloting Freestyle Championships. The Competition Rules will be updated at the next ISC Plenary Meeting.</p>
