

## Technical Notice – Revised Volumes effective 1st June 2019

Please be advised that Revised Versions of the 2019 edition of the following Sporting Code Volumes have been published:

SC4\_F3\_Aerobatics; SC4\_F4\_Scale; SC4\_S\_Space

It was decided to publish revised volumes of Aerobatics, Scale and Space owing to the number, scope and importance of “early implementation” rules agreed at the 2019 Plenary Meeting, and so as to make these rules readily available for the remaining competitions in 2019. The Revised Versions can be downloaded from the Documents page.

The 2019 CIAM Plenary Meeting also approved the early implementation of a **safety rule** contained in the following Sporting Code Volume: F5 Electric. This safety rule is applicable for all the remaining competitions in 2019. Organisers and competitors should download this rule from the Technical Notices on the Documents Page.
